

Polishing Stainless Steel CNC Parts 201/301/303/304/316/316L Customized CNC Parts

Our Product Introduction

For more products please visit us on cnc-metalmachining.com

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: Xiange
- Certification: ISO9001:2015
- Model Number: ST-CNC-034
- Minimum Order Quantity: 1 pcs
- Price: USD \$0.1-\$1.99
- Packaging Details: Carton, As Customers' packaging requirements
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Supply Ability: 10000 pcs per week

Product Specification

- Lead Time: 10-15 Days
- Design: Customized
- Material: Stainless Steel 201/301/303/304/316/316L
- Application: Industrial
- Surface Treatment: Polishing
- Size: Customized
- Shape: Customized
- Color: Customized
- Highlight: Polishing Stainless Steel CNC Parts,
201 Customized CNC Parts,
316L Customized CNC Parts

Product Description

What We Can Provide

Customized Stainless Steel CNC Parts 201/301/303/304/316/316L Customized CNC Parts

Product Description:

We specialize in manufacturing Stainless Steel CNC Parts with superior precision and accuracy. Our high-quality Stainless Steel Precision Parts, made of Stainless Steel 201/301/303/304/316/316L, are designed to meet the highest standards of industrial applications. We can customize the shape and logo of the parts to match your specific requirements. In addition, our lead time is 10-15 days.

Our Stainless Steel Machined Parts are widely used in industrial applications due to their reliability, durability, and excellent performance. Our experienced engineers and technicians ensure that all parts are manufactured to the highest standards, ensuring consistent quality. We can also provide additional services such as surface treatment and assembly.

At XYZ, we are committed to providing our customers with high-quality Stainless Steel CNC Parts that meet their exact requirements. Our commitment to quality, competitive pricing, and fast lead times, make us the ideal choice for your next Stainless Steel Precision Parts or Stainless Steel Machined Parts project.

Features:

Product Name: Stainless Steel CNC Parts

Material: Stainless Steel 201/301/303/304/316/316L

Design: Customized

Packing: Carton Box

Application: Industrial

Processing Method: CNC

Specialty: Stainless Steel CNC Components, CNC Stainless Steel Parts, CNC Stainless Steel Parts

Technical Parameters:

Product Name	Precision Custom Aluminum stainless steel Cu CNC turning Parts Small Metal Parts CNC machining Service
Material	Aluminum, copper, brass, stainless steel, steel, iron, alloy, zinc etc. Other Special Materials: Lucite/Nylon/wood/titanium/etc
Surface Treatment	Anodizing, Brushing, Galvanized, laser engraving, Silk printing, polishing, Powder coating, etc
Tolerance	+/-0.005mm, 100% QC quality inspection before delivery, can provide quality inspection form
Testing equipment	CMM; Tool microscope; multi-joint arm; Automatic height gauge; Manual height gauge; Dial gauge; Marble platform; Roughness measurement
Processing	CNC turning, CNC milling, CNC machining, Grinding, EDM wire cutting
File Formats	Solid Works, Pro/Engineer, AutoCAD(DXF, DWG), PDF, TIF etc.

Applications:

Xiange ST-CNC-034 stainless steel CNC components are precision machined components that are made from high-grade stainless steel. These parts are designed to be used in a wide variety of industrial applications and can be customized according to the needs of a customer. They are perfect for tasks that require precise and accurate machining, such as the fabrication of complex shapes and intricate designs. The MOQ for these components is 1 piece, and they can be customized in terms of color, size, and logo. As a reliable stainless steel CNC components manufacturer, Xiange offers quality products that are designed to last for many years with minimal maintenance. Xiange stainless steel CNC components are ideal for applications that require high-precision machining and superior strength. They are widely used in the aerospace, automotive, medical, and electronics industries and are perfect for creating complex shapes and intricate designs. These components are highly durable and can withstand extreme temperatures and pressures. They are also corrosion-resistant and can be used in a wide range of industrial environments. Xiange provides high-quality components that are designed to meet the highest standards of quality and performance.

Xiange stainless steel CNC components are made with the highest levels of precision and accuracy. They can be customized according to the specifications of a customer and are designed to meet the most stringent requirements. With their superior strength, corrosion-

resistance, and high-precision machining, Xiangge stainless steel CNC components are perfect for a wide variety of industrial applications. Xiangge is a reliable stainless steel CNC components manufacturer that provides quality products that are designed to last for many years with minimal maintenance.

Customization:

Stainless Steel CNC Parts

Brand Name: Xiangge
Model Number: ST-CNC-034
Place of Origin: Shenzhen China
Material: Stainless Steel 201/301/303/304/316/316L
Packing: Carton Box
Lead Time: 10-15 Days
Design: Customized
Application: Industrial

We offer custom-made stainless steel precision parts, stainless steel machined parts, stainless steel precision parts and stainless steel CNC parts to meet your industrial needs.

Why Choose Us

Support and Services:

Stainless Steel CNC Parts Technical Support and Service

At XYZ Company, we offer technical support and service for our stainless steel CNC parts. Our team of experts can help you design, manufacture, and install the parts you need in a timely and cost-effective manner. Our highly skilled technicians will provide you with comprehensive technical advice and support to ensure that your components are properly installed and functioning optimally. We also offer a variety of maintenance and troubleshooting services to keep your parts in top condition. Our team of experienced engineers and technicians are available 24/7 to provide you with the best possible service. We offer a wide range of services including:

- Design and manufacture of custom parts
- Installation and testing of components
- Troubleshooting and maintenance services
- Consulting and prototyping services

At XYZ Company, we are committed to providing our customers with the best quality service and products. We stand behind our products and services and guarantee customer satisfaction.

Factory Equipment

WEDM

Milling Machine

CNC Wire Cut

Coordinate measuring machine

CNC Bending Machine

Hydraulic Press Machine

SLS/SLA Machine

5-Axis CNC

CNC Lathe

Laser cutting Machine

CNC Punching Machine

Injection Molding machine

High Precision

5-Axis CNC & Imported machines
with accuracy $\pm 0.02-0.10\text{mm}$

Fast Lead Time

Multiple CNC machines, skillful
workers, guarantee fast lead time

Strictly Confidential

We will protect the customers' design
and the customer can request a
confidentiality agreement

Quality Inspection

We have a strict quality inspection
process to ensure the quality of our
products

FAQ:

Q1: What is the brand name of the Stainless Steel CNC Parts?

A1: The brand name of the Stainless Steel CNC Parts is Xianghe.

Q2: What is the model number of the Stainless Steel CNC Parts?

A2: The model number of the Stainless Steel CNC Parts is ST-CNC-034.

Q3: Where is the Stainless Steel CNC Parts manufactured?

A3: The Stainless Steel CNC Parts is manufactured in Shenzhen, China.

Q4: What are the materials of the Stainless Steel CNC Parts?

A4: The Stainless Steel CNC Parts is made of stainless steel.

Q5: What is the size of the Stainless Steel CNC Parts?

A5: The size of the Stainless Steel CNC Parts varies depending on the specific product.
