

Custom Precision CNC Metal Service Anodizing Sandblasting CNC Machining Parts

Our Product Introduction

for more products please visit us on cnc-metalmachining.com

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: Xiange
- Certification: ISO9001:2015
- Model Number: CNC-Metal-036
- Minimum Order Quantity: 1 pcs
- Price: USD \$0.1-\$1.99
- Packaging Details: Carton, As Customers' packaging requirements
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 10000 pcs per week

Product Specification

- Type: Milling, Turning, Machining
- Cnc Machining Or Not: CNC Machining
- Material Capabilities: Copper, Aluminum, Bronze, Stainless Steel, Brass
- Surface Treatment: Anodized, Anodizing, Anodize/natural, Sandblast, Silk-screen
- Application: Machinery, Automotive, Laptop, Industrial Equipment, Engineering
- Color: As Per Customers' Requirement
- Service: Customized OEM
- Tolerance: 0.01mm, 0.05 Mm, +/-0.005, 0.003-0.05mm
- Sample: Acceptable
- Packing: As Customers' Requirements
- Highlight: **Custom Precision CNC Metal Service, Anodizing CNC Machining Parts, Sandblasting CNC Machining Parts**

Product Description

What We Can Provide

Factory Custom CNC High Quality Metal Precision Service CNC Machining Parts

Description of Precision CNC Machining Service

Precision CNC machining parts refer to components that are manufactured through computer numerical control (CNC) machining processes with a high level of accuracy and precision. CNC machining is a subtractive manufacturing method where material is gradually removed from a solid block or workpiece using computer-controlled tools such as drills, mills, lathes, and grinders. This technology enables the creation of intricate and detailed parts with tight tolerances and exact specifications.

High Precision and Accuracy: Precision CNC machining parts are crafted with exceptional accuracy, often achieving tolerances as tight as a few micrometers. This level of precision ensures that the parts fit and function perfectly within larger assemblies.

Specification of Precision CNC Machining Service

Material	Aluminum,Aluminum alloy,Zinc alloy,Brass,Bronze,Copper,Stainless steel,Steel alloys etc
Maximum Length	1000mm
Tolerance	+/- 0.01mm
Size	Customized
Type	Broaching,driling,milling,turning
Surface Treatment	Heat treatment,anodized,polishing,PVDCVD coating,galvanized, electroplating,
Process	CNC machining,cnc turning, cnc milling,anodized etc
Certification	ISO9001
Finish	Anodizing,nickel plated,zinc plated,polishing etc,
Application	Communication equipment,consumer electronics,automation machine, medical device,industrial machine,automobile,electric appliance,and other industries.
Service	OEM/ODM service

Quality Control

1. Checking the raw material after they reach our factory----- Incoming quality control (IQC)
2. Checking the details before the production line operated
3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
4. Checking the goods after they are finished---- Final quality control(FQC)
5. Checking the goods after they are finished-----Outgoing quality control(OQC)

Advantages

1. Quality control: the defective products rate is 0.1%. Imported material 100%.
2. Reasonable price. Precision made. Experience & reasonable QC that you can rely on.
3. Each part would be given 100% test and tryout before shipment.
4. Adequate supply capacity. Punctual delivery time.

Why Choose Us

Our promise

1. Offering design and improvement scheme freely.
2. Offering video and photos with details freely during production.
3. Helping customers to do factory inspection freely for his other Chinese suppliers.
4. Producing completely according to the accuracy of drawings,assembly measurement to detect function and strict quality control to ensure 0 return rate.
5. 99% orders can be ensured delivery time.
6. Quote can be offered within 2 days fastest
7. Delivery time is only 7 days fastest.

8. Responding to the enquiry within 2 hours.
9. The materials we use are optimal.
10. 24 hours online service.
11. The lowest price with the same quality and service.
12. Logistics arrangement with high performance to price ratio.
13. The most suitable packing method to different products.

Factory Equipment

WEDM

Milling Machine

CNC Wire Cut

Coordinate measuring machine

CNC Bending Machine

Hydraulic Press Machine

SLS/SLA Machine

5-Axis CNC

CNC Lathe

Laser cutting Machine

CNC Punching Machine

Injection Molding machine

FAQ

Q1: Where can I get product & price information?

A1: Send us inquiry e-mail, we will contact you as we receive your mail.

Q2: How long can I get the sample?

A2: Depends on your specific items, within 3-7 days is required generally.

Q3: What kinds of information you need for quote?

A3: Kindly please provide the product drawing in PDF, and will be better you can provide in STEP or IGS.

Q4: What are the payment terms?

A4: We accept 50% as payment deposit, when the goods is done, we take photos for your check and you then pay the balance.

Q5: Are you a trading company or factory?

A5: We are direct factory with 10 experienced engineers and more than 650 employees as well approximate 2,000 square ft. workshop area.

Q6: What shall we do if we do not have drawings?

A6: Please send your sample to our factory, then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions (Length, Height, Width), CAD or 3D file will be made for you if placed order.
