

Custom CNC Processing Accessories Precision Metal Stainless Steel CNC Machining Parts

Our Product Introduction

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: Xiange
- Certification: ISO9001:2015
- Model Number: ST-CNC-036
- Minimum Order Quantity: 1 pcs
- Price: USD \$0.1-\$1.99
- Packaging Details: Carton, As Customers' packaging requirements
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 10000 pcs per week

Product Specification

- Cnc Machining Or Not: CNC Machining
- Type: Milling, Turning, Machining
- Material Capabilities: Copper, Aluminum, Bronze, Stainless Steel, Brass
- Surface Treatment: Anodized, Anodizing, Anodize/natural, Sandblast, Silk-screen
- Application: Machinery, Automotive, Laptop, Industrial Equipment, Engineering
- Tolerance: 0.01mm, 0.05 Mm, +/-0.005, 0.003-0.05mm
- Service: Customized OEM
- Keyword: Stainless Steel Milling Parts
- Quality Control: 100% Inspection Berore Shipment, 100% Full Inspection
- Highlight: **Anodized CNC Processing Accessories, Precision Metal CNC Processing Accessories, OEM Stainless Steel CNC Machining Parts**

Product Description

What We Can Provide

Custom CNC Processing Accessories Precision Metal Stainless Steel CNC Machining Parts

Description of Stainless Steel CNC Machining Parts

Stainless steel CNC machining parts are components made from stainless steel materials using Computer Numerical Control (CNC) machining processes. CNC machining is a highly precise and automated manufacturing method that involves using computer-controlled machines to remove material from a workpiece, resulting in the creation of intricate and accurately dimensioned parts. Stainless steel, known for its corrosion resistance and durability, is a popular material choice for a wide range of applications.

Material Properties: Stainless steel is a family of iron-based alloys that contains a minimum of 10.5% chromium, which imparts excellent corrosion resistance. Depending on the specific alloy, stainless steel can exhibit varying levels of strength, toughness, and heat resistance.

Specification of Stainless Steel CNC Machining Parts

Material	Aluminum: 2000 series, 6000 series, 7075, 5052 etc Stainless steel: SUS303, SUS304, SS316, SS316L, 17-4PH etc Steel: 1214L/1215/1045/4140/SCM440/40CrMo etc Brass: 260, C360, H59, H60, H62, H63, H65, H68, H70, Bronze, Copper Titanium: GradeF1-F5 Plastic: Acetal/POM/PA/Nylon/PC/PMMA /PVC/PU/Acrylic/ABS/PTFE/PEEK etc
Surface Treatment	Anodizing, Brushing, Galvanized, laser engraving, Silk printing, polishing, Powder coating, etc
Tolerance	+/-0.01mm, 100% QC quality inspection before delivery, can provide quality inspection form
Testing equipment	CMM; Tool microscope; multi-joint arm; Automatic height gauge; Manual height gauge; Dial gauge; Marble platform; Roughness measurement
Processing	CNC turning, CNC milling, CNC machining, Grinding, EDM wire cutting
File Formats	Solid Works, Pro/Engineer, AutoCAD(DXF, DWG), PDF, TIF etc.

Application Of Stainless Steel CNC Machining Parts

1. Auto Components Hardware Parts Auto Parts
2. Communication Equipment
3. Industrial Equipment
4. Medical EquipmentsMechanical Parts
5. Ship Accessories
6. Electrical Equipment
7. Mechanical Equipment

Quality Control

1. Checking the raw material after they reach our factory----- Incoming quality control (IQC)
2. Checking the details before the production line operated
3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
4. Checking the goods after they are finished---- Final quality control(FQC)
5. Checking the goods after they are finished-----Outgoing quality control(OQC)

Why Choose Us

Our Advantages

1. Small details make big difference. We promise:All the parts from our company have no sharp edge. All dimensions are controlled according to your drawings. Every product will be fully inspected and carefully packed to prevent the bump and rust in transit.
2. The craftsmanship of all parts we machined is controlled rigorously, Every product has its own process card and process chart.
3. Our quality inspection procedure is quite strict.it must self-inspected during production, we have flow inspectors and professional inspectors.

4. Each size of product must be tested one by one after completing production and provide quality report.
5. The most important point, we are the entity factory, not trading company. Price is the composition of the actual product quality price. Quality can guarantee more controllable higher than trading company. The price is competitive, at least reducing the trade company's service fee.
6. We have many years of export experience, exports to the US, Europe, Japan and other countries and regions.

Factory Show

Factory Equipment

WEDM

Milling Machine

CNC Wire Cut

Coordinate measuring machine

CNC Bending Machine

Hydraulic Press Machine

SLS/SLA Machine

5-Axis CNC

CNC Lathe

Laser cutting Machine

CNC Punching Machine

Injection Molding machine

FAQ

Q1: Where can I get product & price information?

A1: Send us inquiry e-mail, we will contact you as we receive your mail.

Q2: How long can I get the sample?

A2: Depends on your specific items, within 3-7 days is required generally.

Q3: What kinds of information you need for quote?

A3: Kindly please provide the product drawing in PDF, and will be better you can provide in STEP or IGS.

Q4: What are the payment terms?

A4: We accept 50% as payment deposit, when the goods is done, we take photos for your check and you then pay the balance.

Q5: Are you a trading company or factory?

A5: We are direct factory with 10 experienced engineers and more than 650 employees as well approximate 2,000 square ft. workshop area.

Q6: What shall we do if we do not have drawings?

A6: Please send your sample to our factory, then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions (Length, Height, Width), CAD or 3D file will be made for you if placed order.
