

Customized Metal Aluminum Brass CNC Turning Parts Anodized Surface Treatment

Our Product Introduction

for more products please visit us on cnc-metalmachining.com

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: Xiange
- Certification: ISO9001:2015
- Model Number: BS-CNC-040
- Minimum Order Quantity: 1 pcs
- Price: USD \$0.1-\$1.99
- Packaging Details: Carton, As Customers' packaging requirements
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 10000 pcs per week

Product Specification

- Cnc Machining Or Not: CNC Machining
- Type: Milling, Turning, Machining
- Material Capabilities: Copper, Aluminum, Bronze, Stainless Steel, Brass
- Surface Treatment: Anodized, Anodizing, Anodize/natural, Sandblast, Silk-screen
- Application: Machinery, Automotive, Laptop, Industrial Equipment, Engineering
- Tolerance: 0.01mm, 0.05 Mm, +/-0.005, 0.003-0.05mm
- Service: OEM/ODM, OEM ODM Metal Stamping, Customized OEM OEM ODM, OEM Service
- Color: As Per Customers' Requirement
- Keyword: CNC Milling Brass Parts
- Sample: Acceptable
- Highlight: **Customized Brass CNC Turning Parts, Anodized Surface CNC Turning Parts**

Product Description

What We Can Provide

Factory CNC Turning Parts Custom Metal Aluminum Brass CNC Turning Parts

Description of Custom CNC Brass Parts

4-axis CNC machining services involve the use of computer numerical control (CNC) machines that can perform machining operations on a workpiece along four different axes simultaneously. Unlike traditional 3-axis CNC machines that can move the tool along the X, Y, and Z axes, 4-axis machines add a rotary axis (usually referred to as the A-axis) to enable additional rotational movement.

Multi-Axis Machining: 4-axis CNC machines offer increased flexibility and efficiency compared to 3-axis machines by allowing the cutting tool to move along four axes, enabling more complex and intricate geometries to be machined in a single setup.

Specification of Custom CNC Brass Parts

Drawing Format	PRO/E, Auto CAD, Solid works, IGS, UG, CAD/CAM/CAE
Tolerance	0.01~0.05mm, can customize as per request.
Dimension	Customized
Test equipment	Measurement instrument, projector, CMM, Altimeter, Micrometer, Thread Gages, Calipers, Pin guage etc.
Proudution Equipments	CNC Machining lathe, Hot forging & Hydraulic compress machine, Auto-milling machine, Drilling and Milling Center, Braid machine
Material	Aluminum, Brass, Bronze, Copper, Stainless Steel, Steel Alloy, etc.
Surface Treatment	Zinc/Nickel/Chrome Plating, Passivation, Hardening, Clear Anodizing, Black Anodizing, Black Oxide, Coating, Degreasing, Brushing, Electronic

Application Of Custom CNC Brass Parts

1. Auto Components Hardware Parts Auto Parts
2. Communication Equipment
3. Industrial Equipment
4. Medical EquipmentsMechanical Parts
5. Ship Accessories
6. Electrical Equipment
7. Mechanical Equipment

Quality Control

1. Checking the raw material after they reach our factory----- Incoming quality control (IQC)
2. Checking the details before the production line operated
3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
4. Checking the goods after they are finished---- Final quality control(FQC)
5. Checking the goods after they are finished-----Outgoing quality control(OQC)

Why Choose Us

Our promise

1. Offering design and improvement scheme freely.
2. Offering video and photos with details freely during production.
3. Helping customers to do factory inspection freely for his other Chinese suppliers.
4. Producing completely according to the accuracy of drawings,assembly measurement to detect function and strict quality control to ensure 0 return rate.
5. 99% orders can be ensured delivery time.
6. Quote can be offered within 2 days fastest
7. Delivery time is only 7 days fastest.
8. Responding to the enquiry within 2 hours.

9. The materials we use are optimal.
10. 24 hours online service.
11. The lowest price with the same quality and service.
12. Logistics arrangement with high performance to price ratio.
13. The most suitable packing method to different products.

FAQ

Q1: Where can I get product & price information?

A1: Send us inquiry e-mail, we will contact you as we receive your mail.

Q2: How long can I get the sample?

A2: Depends on your specific items, within 3-7 days is required generally.

Q3: What kinds of information you need for quote?

A3: Kindly please provide the product drawing in PDF, and will be better you can provide in STEP or IGS.

Q4: What are the payment terms?

A4: We accept 50% as payment deposit, when the goods is done, we take photos for your check and you then pay the balance.

Q5: Are you a trading company or factory?

A5: We are direct factory with 10 experienced engineers and more than 650 employees as well approximate 2,000 square ft. workshop area.

Q6: What shall we do if we do not have drawings?

A6: Please send your sample to our factory, then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions (Length, Height, Width), CAD or 3D file will be made for you if placed order.
