

## Custom Fittings Anodizing Precision Cnc Machining Parts Hexagon Brass Automotive Inserts Nuts

Our Product Introduction

for more products please visit us on [cnc-metalmachining.com](http://cnc-metalmachining.com)

### Basic Information

- Place of Origin: Shenzhen China
- Brand Name: Xiange
- Certification: ISO9001:2015
- Model Number: BS-CNC-045
- Minimum Order Quantity: 1 pcs
- Price: USD \$0.1-\$1.99
- Packaging Details: Carton, As Customers' packaging requirements
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 10000 pcs per week

### Product Specification

- Cnc Machining Or Not: CNC Machining
- Type: Milling, Turning, Machining
- Material Capabilities: Copper, Aluminum, Bronze, Stainless Steel, Brass
- Surface Treatment: Anodized, Anodizing, Anodize/natural, Sandblast, Silk-screen
- Application: Machinery, Automotive, Laptop, Industrial Equipment, Engineering
- Tolerance: 0.01mm, 0.05 Mm, +/-0.005, 0.003-0.05mm
- Service: OEM/ODM, OEM ODM Metal Stamping, Customized OEM OEM ODM, OEM Service
- Color: As Per Customers' Requirement
- Keyword: CNC Milling Brass Parts
- Sample: Acceptable
- Highlight: **anodizing precision cnc machining parts, brass precision cnc machining parts, anodizing brass cnc parts**

## Product Description

### What We Can Provide

High Precision Custom Fittings Hexagon Brass Automotive Inserts Nuts Precision CNC Machining Parts

#### Description of High Precision Customized CNC Brass Parts

Precision CNC brass parts are custom-made components manufactured using Computer Numerical Control (CNC) machining processes from brass material. These parts are characterized by their exceptional precision, accuracy, and high-quality finish. Brass, a copper-zinc alloy, is a popular choice for precision machining due to its excellent machinability, corrosion resistance, and electrical conductivity. Precision CNC brass parts are widely used in various industries, including automotive, electronics, aerospace, plumbing, and more.

**Material Selection:** Brass is chosen for its unique properties, including corrosion resistance, electrical conductivity, and a golden appearance. Different brass alloys, such as C36000 (free-cutting brass) or C46400 (naval brass), can be used to meet specific requirements.

#### Specification of High Precision Customized CNC Brass Parts

Accept Drawing Format	jpg /.pdf /.dwg/.igs./.stp etc.
Tolerance	+/-0.005 mm - 0.01 mm (Customized available)
Processing	Turning, Milling, Drilling, Auto lathe, Tapping, Surface treatment, CNC milling, CNC turning, CNC auto machining, etc.
Material Available	Aluminum: AL2024, AL5052, AL6061, AL6063, AL6082, AL7075, etc. Stainless steel: SS201, SS301, SS303, SS304, SS316, SS416, etc. Brass: C24000, C26000, C28000, C35600, C36000, C37000, etc. Copper: C10100, C11000, C12000, C12200, etc. Plastic: POM, PEEK, Teflon, Nylon, Delrin, etc. Iron: Q235, Q345b, 1214/1215, 45#, 20#, 4140/4130, etc.
Surface Treatment	Aluminum Parts: Clear Anodized, Color Anodized, Sandblast Anodized, Chroming, Brushing, Polishing, etc. Stainless Steel Parts: Polishing, Passivating, Sandblasting, Laser engraving, Electrophoresis black, Oxide black, etc. Steel Parts: Zinc Plating, Oxide black, Nickel Plating, Powder Coated, Heat treatment, Chrome Plating, etc. Brass Parts: Nickel Plating, chrome plating, Electrophoresis black, Powder coated, Gold plating, etc.

#### Application Of High Precision Customized CNC Brass Parts

1. Auto Components Hardware Parts Auto Parts
2. Communication Equipment
3. Industrial Equipment
4. Medical Equipments Mechanical Parts
5. Ship Accessories
6. Electrical Equipment
7. Mechanical Equipment

#### Quality Control

1. Checking the raw material after they reach our factory----- Incoming quality control ( IQC)
2. Checking the details before the production line operated
3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
4. Checking the goods after they are finished---- Final quality control(FQC)
5. Checking the goods after they are finished-----Outgoing quality control(OQC)

### Why Choose Us

#### Advantages

1. Quality control: the defective products rate is 0.1%. Imported material 100%.
2. Reasonable price. Precision made. Experience & reasonable QC that you can rely on.
3. Each part would be given 100% test and tryout before shipment.
4. Adequate supply capacity. Punctual delivery time.

## Factory Show

# Factory Equipment

WEDM

Milling Machine

CNC Wire Cut

Coordinate measuring machine

CNC Bending Machine

Hydraulic Press Machine

SLS/SLA Machine

5-Axis CNC

CNC Lathe

Laser cutting Machine

CNC Punching Machine

Injection Molding machine

## FAQ

### Q1: Where can I get product & price information?

A1: Send us inquiry e-mail, we will contact you as we receive your mail.

### Q2: How long can I get the sample?

A2: Depends on your specific items, within 3-7 days is required generally.

### Q3: What kinds of information you need for quote?

A3: Kindly please provide the product drawing in PDF, and will be better you can provide in STEP or IGS.

### Q4: What are the payment terms?

A4: We accept 50% as payment deposit, when the goods is done, we take photos for your check and you then pay the balance.

### Q5: Are you a trading company or factory?

A5: We are direct factory with 10 experienced engineers and more than 650 employees as well approximate 2,000 square ft. workshop area.

### Q6: What shall we do if we do not have drawings?

A6: Please send your sample to our factory, then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions (Length, Height, Width), CAD or 3D file will be made for you if placed order.
