

OEM Sheet Metal Shell Laser Cutting Punching Bending Sheet Metal Fabrication Frames

Our Product Introduction

for more products please visit us on cnc-metalmachining.com

Basic Information

- Place of Origin: China
- Brand Name: Xianghe
- Certification: ISO 9001:2015 SGS RoHS
- Model Number: MF-XG-11
- Minimum Order Quantity: 1 pcs
- Price: USD 1\$-2\$
- Packaging Details: Carton Wooden case
- Delivery Time: 5-8 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 10 SET per week

Product Specification

- Material Capabilities: Stainless Steel, Aluminium, Copper, Brass
- Products: Metal Equipment Shell
- Process: Metal Sheets Fabrication, Welding Cutting Punching Stamping
- Application: Electronic Equipment Sheet Metal Shell, Custom Control Box Cabinet Chassis Shell
- OEM/ODM: Acceptable
- Equipment: Precision Nonstandard Parts
- Surface Treatment: Powder Coated, Hot Galvanized, Painting, Polishing, Spray Coating, Brushing, Cathaphoresis, Sandblasting, Electroplate Chrome/Zinc/Nickel Plating/Anodize/Electronic Polish, Silk-screen Etc;
- Package: Platic Bag ,Blister Box ,Tap Reel Or As Your Required
- Used: Computer, Telecom, mechical ,electronics, appliance, military, aerospace.

Product Description

What We Can Provide

High Demand Sheet Metal Product Sheet Metal Laser Cutting Punching Bending Sheet Metal Fabrication Frames

Description of High Precision OEM Sheet Metal Frames

"High Demand Sheet Metal Product Sheet Metal Laser Cutting Punching Bending Sheet Metal Fabrication Frames" refers to a comprehensive range of manufacturing processes and services aimed at meeting the high demand for sheet metal products, particularly those requiring precision fabrication.

High Demand Sheet Metal Product: This indicates that there is a significant market need or demand for sheet metal products. These products may vary widely and can include anything from automotive components and electronic enclosures to machinery parts and architectural elements.

Sheet Metal Laser Cutting: Laser cutting is a precise method of cutting sheet metal using a high-powered laser beam. It allows for intricate shapes, patterns, and contours to be cut with exceptional accuracy and speed. Sheet metal laser cutting is ideal for producing complex components with tight tolerances.

Punching: Punching is a process used to create holes, slots, or other features in sheet metal by forcing a tool through the material. It is commonly used for mass-producing parts with consistent hole patterns or shapes. Punching is efficient and cost-effective for high-volume manufacturing.

Bending: Bending is the process of forming sheet metal into desired shapes or angles using a press brake or similar equipment. This process allows for the creation of bends, angles, and curves in the sheet metal to meet specific design requirements.

Specification of High Precision OEM Sheet Metal Frames

| | |
|-------------|---|
| Product | Custom Sheet Metal Fabrication Laser Cutting Bending Sheet Metal Stamping Parts |
| Material | Stainless Steel, Carbon Steel(Q235), Aluminum(6061,6063, 5052), Copper, Brass etc. |
| Process | Bending, Stamping, Welding |
| Finish | Zinc Plating, Mirror Polished, Brush Polished, Paint, Anodic Oxidation, Powder Coated |
| Package | Plywood Box + Plywood Pallet, Plywood Box |
| OEM Service | Accept |

Quality Control

1. Checking the raw material after they reach our factory----- Incoming quality control (IQC)
2. Checking the details before the production line operated
3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
4. Checking the goods after they are finished---- Final quality control(FQC)
5. Checking the goods after they are finished-----Outgoing quality control(OQC)

Application Of High Precision OEM Sheet Metal Frames

1. Auto Components Hardware Parts Auto Parts
2. Communication Equipment
3. Industrial Equipment
4. Medical EquipmentsMechanical Parts
5. Ship Accessories
6. Electrical Equipment
7. Mechanical Equipment

Why Choose Us

Our Advantages

1. Small details make big difference. We promise:All the parts from our company have no sharp edge. All dimensions are controlled according to your drawings. Every product will be fully inspected and carefully packed to prevent the bump and rust in transit.
2. The craftsmanship of all parts we machined is controlled rigorously, Every product has its own process card and process chart.
3. Our quality inspection procedure is quite strict.it must self-inspected during production, we have flow inspectors and professional inspectors.
4. Each size of product must be tested one by one after completing production and provide quality report.

5. The most important point, we are the entity factory, not trading company. Price is the composition of the actual product quality price. Quality can guarantee more controllable higher than trading company. The price is competitive, at least reducing the trade company's service fee.
6. We have many years of export experience, exports to the US, Europe, Japan and other countries and regions.
7. Our team are more professional. We have more reasonable price and better quality controlling than trade company. And our language ability is also diversified.

Multiple Machines

5-Axis CNC & Imp Professional machines, skillful workers, machines, skillful
with accuracy & guarantee the quality and lead time. nte fast lead time

Strictly Confidential

We will protect the customers' design
and the customer can request a
confidentiality agreement

Quality Inspection

We have a strict quality inspection
process to ensure the quality of our
products

Stainless Steel Material

Material:

Stainless Steel 201
Stainless Steel 430
Stainless Steel 304
Stainless Steel 316

Finish:

Mirror Polishing
Brush Polishing
Electro Polishing
Vibration Polishing

FAQ

Q1: Where can I get product & price information?

A1: Send us inquiry e-mail, we will contact you as we receive your mail.

Q2: How long can I get the sample?

A2: Depends on your specific items, within 3-7 days is required generally.

Q3: What kinds of information you need for quote?

A3: Kindly please provide the product drawing in PDF, and will be better you can provide in STEP or IGS.

Q4: What are the payment terms?

A4: We accept 50% as payment deposit, when the goods is done, we take photos for your check and you then pay the balance.

Q5: Are you a trading company or factory?

A5: We are direct factory with 10 experienced engineers and more than 650 employees as well approximate 2,000 square ft. workshop area.

Q6: What shall we do if we do not have drawings?

A6: Please send your sample to our factory, then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions (Length, Height, Width), CAD or 3D file will be made for you if placed order.
