

Brass Box Case Enclosure for Custom LED LCD Frame Fabrication in Wooden Case Packing Details

Basic Information

Place of Origin:
 Shenzhen China

Brand Name: Xiange

Certification: ISO9001:2015Model Number: MFA-XG-056

• Minimum Order Quantity: 1 pcs

• Price: USD \$0.1-\$1.99

Packaging Details: Carton, As Customers'packaging

requirements

Delivery Time: Samples 7-10 days, Mass production 20-25

days

• Payment Terms: T/T, Western Union, MoneyGram

• Supply Ability: 50000 pcs per week

Product Specification

• Supply Type: OEM Service

Material Capabilities: Stainless Steel, Brass, Aluminum, Steel
 Process: Bending, Laser Cutting, Welding, Stamping
 Application: Auto,motorcycle,industry,ariculture,furniture,e
 Packing Details: Cargo

Place Of Origin: China

• Highlight: Custom LED LCD Box Case Enclosure,

Brass Box Case Enclosure

Black, Silver, Customized Color

Product Description

What We Can Provide

Custom Wholesale High Quality Small Box Case Enclosure Sheet Metal Fabrication LED LCD Frame Fabrication

Description Of Customized OEM Metal Frame Welding Quality Sheet Metal Fabrication LED LCD Frame Fabrication

Customized OEM Metal Frame Welding Quality Sheet Metal Fabrication for LED LCD Frames involves the precision engineering and manufacturing of metal frames tailored specifically for LED and LCD displays. This process encompasses a range of steps and techniques to ensure the highest quality fabrication.

Material Selection: Selecting the appropriate type of metal, such as aluminum, steel, or stainless steel, based on the desired strength, durability, and weight requirements.

Design and Engineering: Utilizing CAD (Computer-Aided Design) software to create detailed 3D models of the frame. This allows for precise measurement and ensures compatibility with the LED or LCD display.

Cutting and Shaping: Using precision cutting tools and machines, the metal sheets are cut to the exact dimensions specified in the design. Additional shaping techniques, such as bending or folding, may also be employed to achieve the desired form.

Welding: The individual metal components are then welded together using various welding techniques such as MIG (Metal Inert Gas) or TIG (Tungsten Inert Gas) welding. Strict quality control measures are followed to ensure weld integrity and strength.

Finishing: After welding, the frame undergoes finishing processes like grinding, polishing, or painting to enhance its appearance and durability.

Material Of Customized OEM Metal Frame Welding Quality Sheet Metal Fabrication LED LCD Frame Fabrication

Production Capability Secondary Operations

Operations	* Deburring work by machines,then by hands; * As long as you need no scratches on the products, we can use the film protected material for products during production; * Remove sharps of the products; * Ultrasonic cleaning after production.
Surface Treatments	Powder Coating, Polishing, Brushing, PVD Plating, PVC Coating, Ceramic Coating, Chrome Plating, Nickel Plating, Tin Plating, Copper Plating, Silver Plating, Sandblasting, Anodizing, Dacromet, Baking Varnish, Electrophoresis Coating, Zinc Plating, Hot Dip Galvanizing.
LOGO Printing	Laser Engraving, Silk-screening etc
Assembly Service	Yolanda provide products assembly service after each component production.
Custom Packaging	 Design packaging according to your products; Make the packagings according to your requests; Print your LOGO on the packaging as long as you need; Other request according to your need.

Application Of Customized OEM Metal Frame Welding Quality Sheet Metal Fabrication LED LCD Frame Fabrication

- 1. Construction: Metal angle brackets are extensively used in the construction industry for connecting beams, joists, and rafters. They provide critical support and reinforcement to building structures, ensuring stability and load distribution.
- 2. Shelving: Angle brackets are widely used as shelf supports for wall-mounted shelves in homes, offices, retail stores, and warehouses. They help create sturdy and reliable shelving systems.
- 3. Furniture Assembly: Metal angle brackets are essential in furniture assembly, helping to connect components and reinforcing joints in tables, chairs, cabinets, and bed frames.

Quality Control

- 1. Checking the raw material after they reach our factory----- Incoming quality control (IQC)
- 2. Checking the details before the production line operated
- 3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
- 4. Checking the goods after they are finished---- Final quality control(FQC)

5. Checking the goods after they are finished-----Outgoing quality control(OQC)

Why Choose Us

Advantages

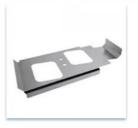

- 1. Quality control: the defective products rate is 0.1%. Imported material 100%.
- 2. Reasonable price. Precision made. Experience & reasonable QC that you can reply on.
- 3. Each part would be given 100% test and tryout before shipment.
- 4. Adequate supply capacity. Punctual delivery time.

Aluminum Material

Material:

Aluminum 5052 Aluminum 6061 Aluminum 6063 etc Finish:

Anodic Oxidation Polishing Powder Coating Spray Painting

Why Choose Us

Multipe Machines

Professional machines, skillful workers, guarantee the quality and lead time.

Strictly Confidential

We will protect the customers'design and the customer can request a confidentiality agreement

Quality Inspection

We have a strict quality inspection process to ensure the quality of our products

FAQ

Q1: Where can I get product & price information?

A1:Send us inquiry e-mail, we will contact you as we receive your mail.

Q2: How long can I get the sample?

A2:Depends on your specific items, within 3-7 days is required generally.

Q3: What kinds of information you need for quote?

A3:Kindly please provide the product drawing in PDF, and will be better you can provide in STEP or IGS.

Q4: What are the payment terms?

A4: We accept 50% as payment deposit, when the goods is done, we take photos for your check and you then pay the

Q5: Are you a trading company or factory?

A5:We are direct factory with 10 experienced engineers and more than 650 employees as well approximate 2,000 square ft.

Q6: What shall we do if we do not have drawings?

A6:Please send your sample to our factory, then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions (Length, Hight, Width), CAD or 3D file will be made for you if placed order.
