

Custom High Precision Communication Equipment Shell Stainless Steel Copper Sheet Metal Fabrication Parts

Our Product Introduction

for more products please visit us on cnc-metalmachining.com

Basic Information

- Place of Origin: China
- Brand Name: Xiangge
- Certification: ISO 9001:2015 SGS RoHS
- Model Number: MF-XG-24
- Minimum Order Quantity: 1 pcs
- Price: USD 1\$-2\$
- Packaging Details: Carton Wooden case
- Delivery Time: 5-8 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 10 SET per week

Product Specification

- Material Capabilities: Stainless Steel, Aluminium, Copper, Brass
- Products: Metal Equipment Shell
- Process: Metal Sheets Fabrication, Welding Cutting Punching Stamping
- Application: Electronic Equipment Sheet Metal Shell, Custom Control Box Cabinet Chassis Shell
- OEM/ODM: Acceptable
- Equipment: Precision Nonstandard Parts
- Surface Treatment: Powder Coated, Hot Galvanized, Painting, Polishing, Spray Coating, Brushing, Cathaphoresis, Sandblasting, Electroplate Chrome/Zinc/Nickel Plating/Anodize/Electronic Polish, Silk-screen Etc;
- Package: Plastic Bag, Blister Box, Tap Reel Or As Your Required
- Used: Computer, Telecom, mechanical, electronics, appliance, military, aerospace.

Product Description

What We Can Provide

Custom Stainless Steel Copper Sheet Metal Fabrication Parts High Precision Communication Equipment Shell

Description of High Precision OEM Bending Aircraft CNC Copper Communication Equipment Shell

High Precision OEM Bending Aircraft CNC Copper Communication Equipment Shell refers to a specialized manufacturing process that involves the precise bending and shaping of copper sheets to create customized outer casings or shells for communication equipment used in aircraft. This process typically utilizes CNC (Computer Numerical Control) machinery to ensure high levels of accuracy and repeatability.

The OEM (Original Equipment Manufacturer) aspect of this process signifies that the shells are made specifically for the customer's unique requirements and specifications. This could include specific dimensions, design features, or other customizations to meet the unique needs of the communication equipment.

Copper is often chosen for these applications due to its excellent electrical conductivity, corrosion resistance, and ductility, which allows for easy bending and shaping. The CNC machinery used in this process employs precision tools and cutting-edge software to control the bending and shaping process, ensuring that the final shells meet the desired specifications.

The manufacturing process typically begins with the selection of the appropriate grade and thickness of copper sheet. The sheet is then loaded into the CNC machinery, which is programmed with the desired bending and shaping parameters. The machinery then precisely bends and shapes the copper sheet to create the desired shell.

Specification of High Precision OEM Bending Aircraft CNC Copper Communication Equipment Shell

Product	Custom Sheet Metal Fabrication Laser Cutting Bending Sheet Metal Stamping Parts
Material	Stainless Steel, Carbon Steel(Q235), Aluminum(6061,6063, 5052), Copper, Brass etc.
Process	Bending, Stamping, Welding
Finish	Zinc Plating, Mirror Polished, Brush Polished, Paint, Anodic Oxidation, Powder Coated
Package	Plywood Box + Plywood Pallet, Plywood Box
OEM Service	Accept

Quality Control

1. Checking the raw material after they reach our factory----- Incoming quality control (IQC)
2. Checking the details before the production line operated
3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
4. Checking the goods after they are finished---- Final quality control(FQC)
5. Checking the goods after they are finished-----Outgoing quality control(OQC)

Application Of High Precision OEM Bending Aircraft CNC Copper Communication Equipment Shell

1. Auto Components Hardware Parts Auto Parts
2. Communication Equipment
3. Industrial Equipment
4. Medical EquipmentsMechanical Parts
5. Ship Accessories
6. Electrical Equipment
7. Mechanical Equipment

Why Choose Us

Advantages

1. Quality control: the defective products rate is 0.1%. Imported material 100%.
2. Reasonable price. Precision made. Experience & reasonable QC that you can rely on.
3. Each part would be given 100% test and tryout before shipment.
4. Adequate supply capacity. Punctual delivery time.

Multiple Machines

5-Axis CNC & Imp Professional machines, skillful workers, machines, skillful
With accuracy of guarantee the quality and lead time. guarantee fast lead time

Strictly Confidential

We will protect the customers' design
and the customer can request a
confidentiality agreement

Quality Inspection

We have a strict quality inspection
process to ensure the quality of our
products

Stainless Steel Material

Material:

Stainless Steel 201
Stainless Steel 430
Stainless Steel 304
Stainless Steel 316

Finish:

Mirror Polishing
Brush Polishing
Electro Polishing
Vibration Polishing

FAQ

Q1: Where can I get product & price information?

A1: Send us inquiry e-mail, we will contact you as we receive your mail.

Q2: How long can I get the sample?

A2: Depends on your specific items, within 3-7 days is required generally.

Q3: What kinds of information you need for quote?

A3: Kindly please provide the product drawing in PDF, and will be better you can provide in STEP or IGS.

Q4: What are the payment terms?

A4: We accept 50% as payment deposit, when the goods is done, we take photos for your check and you then pay the balance.

Q5: Are you a trading company or factory?

A5: We are direct factory with 10 experienced engineers and more than 650 employees as well approximate 2,000 square ft. workshop area.

Q6: What shall we do if we do not have drawings?

A6: Please send your sample to our factory, then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions (Length, Height, Width), CAD or 3D file will be made for you if placed order.
