

Precision Case Metal Steel Stamping Parts Sheet Metal Fabrication for Widely Used Industry

Our Product Introduction

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: Xiange
- Certification: ISO9001:2015
- Model Number: PMS-XG-045
- Minimum Order Quantity: 1 pcs
- Price: USD \$0.1-\$1.99
- Packaging Details: Carton, As Customers' packaging requirements
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 50000 pcs per week

Product Specification

- Material: Copper, Stainless Steel, Aluminum, Brass, Etc.
- Surface Treatment: Hot Galvanized, Zinc Plating, Nickel Plating, Powder Plating, Anodize
- Process: Stamping, Punching, Bending, Punching Of Stamping Blanks, Stamping + CNC
- Application: Construction, Industrial, Used Widely Industry Auto, Mechanical Equipment, Auto Parts
- Service: OEM/ODM, OEM ODM Metal Stamping, Customized OEM OEM ODM, OEM Service
- Tolerance: 0.01mm, 0.05 Mm, +/-0.005, 0.003-0.05mm
- Oem: Available
- Quality: ISO9001
- Keywords: Custom Stamping Metal
- Packing: As Customers' Requirement
- Highlight: **Precision Metal Stamping Parts,**

Product Description

What We Can Provide

Precision Case Metal Steel Stamping Parts Sheet Metal Fabrication Customized Housing Sheet Metal Fabrication Factory

Description of Stamping Bending Parts Die Precision Stamping Housing Sheet Metal Fabrication Factory

A Stamping Bending Parts Die Precision Stamping Housing Sheet Metal Fabrication Factory is a specialized manufacturing facility that focuses on the production of custom-made metal components through a combination of precision stamping, bending, and sheet metal fabrication processes. This type of factory typically serves industries such as automotive, electronics, aerospace, medical devices, and more, where high-quality, precise metal parts are essential for the functionality and durability of their products.

Precision Stamping: Precision stamping involves the use of dies and punches to shape flat sheet metal into desired forms. The dies are designed to create precise contours, holes, and other features in the metal, and the stamping process is highly automated to ensure consistent quality and accuracy. This method is ideal for producing large volumes of identical or similar parts quickly and efficiently.

Bending: Bending is a process where sheet metal is manipulated to form curves, angles, or other non-linear shapes. This is often done in conjunction with stamping to achieve complex geometries. The factory employs various bending techniques, such as press braking, roll bending, and rotary bending, to create the desired shapes and angles in the metal.

Sheet Metal Fabrication: Sheet metal fabrication encompasses a wide range of processes used to create custom metal parts and assemblies. In addition to stamping and bending, this may include cutting, punching, welding, riveting, and surface finishing (such as painting or plating). The factory has the necessary equipment and expertise to handle all aspects of sheet metal fabrication, from initial design and prototyping to final assembly and testing.

Specification of Stamping Bending Parts Die Precision Stamping Housing Sheet Metal Fabrication Factory

Name	Custom OEM Laser Cutting Sheet Metal Fabrication Services Copper Stainless Steel Anodised Aluminum Metal Stamping bending Parts
Material	Zn-plating, Ni-plating, Cr-plating, Tin-plating, copper-plating, the wreath oxygen resin spraying, the heat disposing, hot-dip galvanizing, black oxide coating, painting, powdering, color zinc-plated, blue black zinc-plated, rust preventive oil, titanium alloy galvanized, silver plating, plastic, electroplating, anodizing etc.
Applications	Automotive, instrument, electrical equipment, household appliances, furniture, mechanical equipment, daily living equipment, electronic sports equipment, light industry products, sanitation machinery, market/ hotel equipment supplies, artware etc.
Packaging	Regular: Paper, Foam, OPP bag, Carton; Other: According to customers' requirements
Testing Equipment	Projecting apparatus, Salt Spray Test, Durometer, and Coating thickness tester
Tolerance	±0.01-0.05mm
Drawing	JPG, PDF, CAD, DWG, STP, STEP

Quality Control

1. Checking the raw material after they reach our factory----- Incoming quality control (IQC)
2. Checking the details before the production line operated
3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
4. Checking the goods after they are finished---- Final quality control(FQC)
5. Checking the goods after they are finished-----Outgoing quality control(OQC)

Application Of Stamping Bending Parts Die Precision Stamping Housing Sheet Metal Fabrication Factory

1. Auto Components Hardware Parts Auto Parts
2. Communication Equipment
3. Industrial Equipment
4. Medical EquipmentsMechanical Parts
5. Ship Accessories
6. Electrical Equipment
7. Mechanical Equipment

Why Choose Us

Our promise

Stainless Steel Material

Material:

Stainless Steel 201
Stainless Steel 430
Stainless Steel 304
Stainless Steel 316

Finish:

Mirror Polishing
Brush Polishing
Electro Polishing
Vibration Polishing

FAQ

Q: How can I customize my products ?

A: Please describe your project. Include the following information so that we can provide an accurate quote: Part Name, 3D CAD Drawing, Quantity, Material, Color, Finishing.

Q: How can I know my products going on ?

A: We will offer a detailed production schedule and send weekly reports with digital pictures and videos which show the production process.

Q: Can You sign a confidentiality greement ?

A: We can sign a confidentiality agreement according to your needs.

Q: What is your terms of payment ?

A: 30% in advance ,70% balance before shipment. Other terms negotiable.

Q: Are you a trading company or factory?

A: We are direct factory with 20 experienced engineers and more than 80 employees as well approximate 3,000 square meters workshop area.

Q: What shall we do if we do not have drawings?

A: Please send your sample to our factory,then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions(Length, Height, Width), CAD or 3D file will be made for you if placed order.
