

Fabrication Stainless Steel Shell Carbon Steel Bending Welding Sheet Metal Fabrication Cabinet

Basic Information

Place of Origin: ChinaBrand Name: Xiange

Certification: ISO 9001:2015 SGS RoHS

Model Number: MC-XG-6
Minimum Order Quantity: 1 pcs
Price: USD 0.1\$-2\$

Packaging Details: Carton Wooden case

• Delivery Time: 5-8 days

Payment Terms: T/T, Western Union, MoneyGram

Supply Ability: 10 SET per week

Product Specification

• Material Capabilities: Stainless Steel, Aluminium, Copper, Brass

Products: Metal Eauipment Shell, Sheet Metal Cabinet

Assembly Stamping Parts

Process: Metal Casing, Metal Sheets

Fabrication, Welding Cutting Punching

Stamping

• Application: Carbinet, Parts:Cars, E-sports Hotel,

Architecture, Furniture, metal Plastic Parts

Place Of Origin: China Guangdong

Tolerance: +/-0.02mm
MOQ: 1 Piece
OEM/ODM: Acceptable

• Equipment: Laser Cutter, CNC Bending Machine,

Stamping Machine, Weld

• Surface Treatment: Galvanized, Anodizing, Powder

Coated, Chrome Plating, Nickel Plating Etc.

Craftsmanship: CNC Stamping, CNC Bending, Welding, Laser

What We Can Provide

High Precision Custom Fabrication Stainless Steel Shell Carbon Steel Bending Welding Sheet Metal Fabrication Cabinet

Description of OEM Customized High Precision Sheet Metal Fabrication Cabinet

OEM Customized High Precision Sheet Metal Fabrication Cabinet refers to a cabinet that is designed, engineered, and manufactured to precise specifications by an Original Equipment Manufacturer (OEM). This process involves the use of advanced sheet metal fabrication techniques to create a high-quality, customized cabinet that meets the unique requirements of the end-user.

Design and Engineering

Customized Design: The OEM works closely with the customer to understand their specific needs and requirements for the cabinet. This includes determining the dimensions, material specifications, load-bearing capacity, and any unique features or design elements.

CAD Modeling: Using Computer-Aided Design (CAD) software, the OEM creates detailed 3D models and drawings of the cabinet. This ensures precision and accuracy throughout the manufacturing process.

Material Selection

The material chosen for the cabinet depends on factors such as durability, strength, weight, corrosion resistance, and cost. Common materials used in high-precision sheet metal fabrication include stainless steel, aluminum, and carbon steel. The selected material is carefully sourced to ensure it meets or exceeds the specified quality standards.

Specification of OEM Customized High Precision Sheet Metal Fabrication Cabinet

| CNC Capacity | | | | |
|-----------------------|--|-------------------|---------------------------|--------------------|
| CNC Machining Center | 3 / 4 / 5 axis CNC Machining Centers | | 40+ CNC Machines | |
| CNC Turning | φ0.5 - φ300 * 750 mm | | DIN-2768-Fine +/-0.005 mm | |
| CNC Machining | 1270×508×635 mm(max) | | DIN-2768-Fine +/-0.005 mm | |
| CNC Stamping | 1000 * 1000 mm(max) | | DIN-2768-Fir | ne +/-0.005 mm |
| Drawing Format | IGS,STP,X_T ,DXF,DWG , Pro/E, PDF | | | |
| Inspection Equipments | Measurement Instrument, Projector, CMM, Altimeter, Micrometer, Thread Gages, Calipers, Pin Gauge etc. | | | |
| Material Available | · | | | |
| Stainless Steel | SS201,SS301, SS303, SS304, SS316, SS416, 17-4PH, etc. | | | |
| Steel | Mild steel, Carbon Steel, 4140, 4340, Q235, Q345B, 20#, 45# etc. | | | |
| Brass | HPb63, HPb62, HPb61, HPb59, H59, H68, H80, H90 etc. | | | |
| Copper | C11000,C12000,C12000 C36000 etc. | | | |
| Aluminum | AL6061, Al6063, AL6082, AL7075, AL5052, A380 etc. | | | |
| Iron | A36, 45#, 1213, 12L14, 1215 etc. | | | |
| Plastic | ABS, PC, PE, POM, Delrin, Nylon, Teflon, PP,PEI, Peek etc. | | | |
| Surface Finishing | | | | |
| Aluminum Parts | Stainless Steel Parts | Steel Parts | Copper /Brass | Plastic Parts |
| Clear Anodized | Polishing | Zinc plating | Polishing | Painting |
| Color Anodized | Passivating | Oxide black | Passivation | Chrome plating |
| Sandblast Anodized | Sandblasting | Nickel plating | Galvanized | polishing |
| Chemical Film | Laser engraving | Chrome plating | Nickel Plating | Sandblast |
| Brushing | | Carburized | Chrome plating | Laser engraving |
| Polishing | | Heat treatment | | |
| Chroming | | Powder Coated | | |

Application Of OEM Customized High Precision Sheet Metal Fabrication Cabinet

- 1. Auto Components Hardware Parts Auto Parts
- 2. Communication Equipment
- 3. Industrial Equipment
- 4. Medical EquipmentsMechanical Parts
- 5. Ship Accessories
- 6. Electrical Equipment
- 7. Mechanical Equipment

Feature Of OEM Customized High Precision Sheet Metal Fabrication Cabinet

1. Good corrosion resistance

- 2. High strength and hardness
- 3. High thermal conductivity
- 4. Good finishing characteristics

Why Choose Us

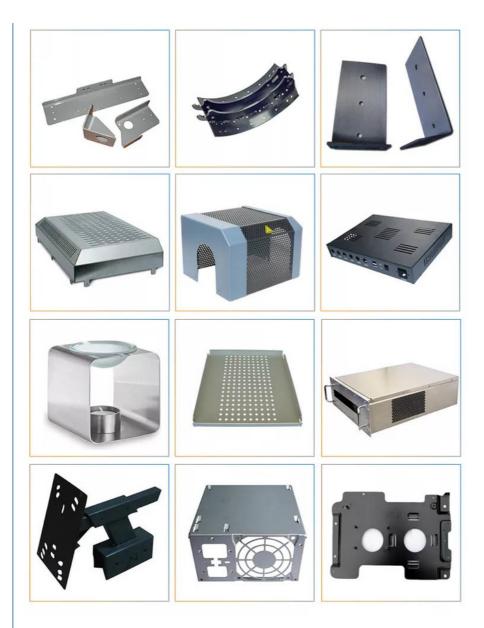

Our Advantages

- 1. Small details make big difference. We promise:All the parts from our company have no sharp edge. All dimensions are controlled according to your drawings. Every product will be fully inspected and carefully packed to prevent the bump and rust in transit.
- 2. The craftsmanship of all parts we machined is controlled rigorously, Every product has its own process card and process chart.
- 3. Our quality inspection procedure is quite strict.it must self-inspected during production, we have flow inspectors and professional inspectors.
- 4. Each size of product must be tested one by one after completing production and provide quality report.
- 5. The most important point, we are the entity factory, not trading company. Price is the composition of the actual product quality price. Quality can guarantee more controllable higher than trading company. The price is competitive, at least reducing the trade company's service fee.
- 6. We have many years of export experience, exports to the US, Europe, Japan and other countries and regions.
- 7. Our team are more professional. We have more reasonable price and better quality controlling than trade company. And our language ability is also diversified.

FAQ

Q1: Where can I get product & price information?

A1:Send us inquiry e-mail, we will contact you as we receive your mail.

Q2: How long can I get the sample?

A2:Depends on your specific items, within 3-7 days is required generally.

Q3: What kinds of information you need for quote?

A3:Kindly please provide the product drawing in PDF, and will be better you can provide in STEP or IGS.

Q4: What are the payment terms?

A4: We accept 50% as payment deposit, when the goods is done, we take photos for your check and you then pay the balance.

Q5: Are you a trading company or factory?

A5:We are direct factory with 10 experienced engineers and more than 650 employees as well approximate 2,000 square ft. workshop area.

Q6: What shall we do if we do not have drawings?

A6:Please send your sample to our factory, then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions (Length, Hight, Width), CAD or 3D file will be made for you if placed order.
