

Custom OEM PA POM PVC CNC Machining Parts Plastic CNC Metal Machining Accessories Supplier

Our Product Introduction

for more products please visit us on cnc-metalmachining.com

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: Xiange
- Certification: ISO9001:2015
- Model Number: CNC-XG-061
- Minimum Order Quantity: 1 pcs
- Price: USD \$0.1-\$1.99
- Packaging Details: Carton, As Customers' packaging requirements
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 10000 pcs per week

Product Specification

- Application: Automotive, Aerospace, Medical, Etc.
- Drawing Format: CAD, PDF, JPG, Etc.
- Inspection: 100% Inspection Before Shipment
- Lead Time: 7-15 Days
- MOQ: 1 Piece
- Material: Metal
- Package: Carton Box, Wooden Box, Etc.
- Payment Term: T/T, L/C, PayPal, Etc.
- Process: CNC Machining
- Size: Customized
- Surface Treatment: Polishing, Sandblasting, Anodizing, Etc.
- Tolerance: $\pm 0.005\text{mm}$
- Transport: By Air, By Sea, By Express, Etc.
- Highlight: Custom OEM CNC Metal Machining Parts, PVC CNC Metal Machining Parts, POM CNC Metal Machining Parts

Product Description

What We Can Provide

Custom OEM PA POM PVC CNC Machining Parts Plastic CNC Metal Machining Accessories Supplier

Description Of Customized High Quality OEM CNC Machining Service Plastic CNC Machining Accessories Supplier

Customized High-Quality OEM CNC Machining Service, specializing in Plastic CNC Machining Accessories, is a supplier that offers tailored solutions to meet the unique requirements of clients across various industries. This service provider utilizes advanced Computer Numerical Control (CNC) machining technology to precisely create plastic components and accessories with exceptional precision and quality.

At the core of this service lies the ability to accept custom designs and specifications from clients, ensuring that every product is made to fit specific needs. The OEM (Original Equipment Manufacturer) aspect signifies that the service provider acts as a direct manufacturer, offering a one-stop-shop for design, production, and supply of plastic CNC machined parts.

Design Consultation: The client collaborates with the supplier's design team to discuss the project requirements, specifications, and any unique design features. This phase ensures that the final product aligns perfectly with the client's vision.

CAD/CAM Programming: Utilizing Computer-Aided Design (CAD) software, the supplier creates detailed 3D models of the components. These models are then converted into machine-readable instructions using Computer-Aided Manufacturing (CAM) software, preparing them for the CNC machining process.

Material Selection: High-quality plastic materials, such as ABS, nylon, acetal, or polycarbonate, are carefully chosen based on the application's requirements, ensuring durability, strength, and performance.

CNC Machining: The CNC machines, under the guidance of the pre-programmed instructions, precisely cut, drill, mill, or turn the plastic material into the desired shape and size. This process guarantees exceptional accuracy and repeatability.

Material Of Customized High Quality OEM CNC Machining Service Plastic CNC Machining Accessories Supplier

Process	CNC Turning, CNC Milling, Laser Cutting, Bending, Spinning, Wire Cutting, Stamping, Electric Discharge Machining (EDM), Injection Molding
Materials	Aluminum: 2000 series, 6000 series, 7075, 5052, etc.
	Stainless steel: SUS303, SUS304, SS316, SS316L, 17-4PH, etc.
	Steel: 1214L/1215/1045/4140/SCM440/40CrMo, etc.
	Brass: 260, C360, H59, H60, H62, H63, H65, H68, H70, Bronze, Copper
	Titanium: Grade F1-F5
	Plastic: Acetal/POM/PA/Nylon/PC/PMMA/PVC/PU/Acrylic/ABS/PTFE/PEEK etc.
Surface Treatment	Anodized, Bead Blasted, Silk Screen, PVD Plating, Zinc/Nickel/Chrome/Titanium Plating, Brushing, Painting, Powder Coated, Passivation, Electrophoresis, Electro Polishing, Knurl, Laser/Etch/Engrave etc.
Tolerance	$\pm 0.002 \sim \pm 0.005\text{mm}$
Surface Roughness	Min Ra 0.1~3.2

Application Of Customized High Quality OEM CNC Machining Service Plastic CNC Machining Accessories Supplier

1. Computers and Laptops: Skived heatsinks are widely used in computer processors, graphics cards, and other internal components to dissipate heat generated during intense computing tasks. They help prevent overheating and maintain optimal performance.
2. LED Lighting: LED lights generate heat, and efficient cooling is essential to maintain their longevity and brightness. Skived heatsinks are used in various LED lighting applications, including residential, commercial, and automotive lighting systems.
3. Audio Amplifiers: High-power audio amplifiers generate significant heat during operation. Skived heatsinks are employed to cool down the amplifier circuitry, ensuring stable performance and minimizing distortion.

Features Of Customized High Quality OEM CNC Machining Service Plastic CNC Machining Accessories Supplier

1. Efficient Heat Dissipation: Aluminum is a highly efficient conductor of heat, and skived heatsinks are designed to maximize the surface area for heat dissipation. The skived fin structure enhances the heatsink's ability to transfer heat away from the electronic components.
2. Thin and Lightweight: Skived heatsinks are manufactured using a precision machining process that allows for the creation of thin and lightweight fins. This design makes them suitable for applications where space and weight are critical considerations.

3. Customizable Fin Geometry: The skiving process allows for the creation of intricate and customizable fin geometries, which can be tailored to specific thermal requirements and airflow conditions. This flexibility ensures optimal performance for various applications.

Why Choose Us

Our Advantages

1. Small details make big difference. We promise: All the parts from our company have no sharp edge. All dimensions are controlled according to your drawings. Every product will be fully inspected and carefully packed to prevent the bump and rust in transit.
2. The craftsmanship of all parts we machined is controlled rigorously, Every product has its own process card and process chart.
3. Our quality inspection procedure is quite strict. It must self-inspected during production, we have flow inspectors and professional inspectors.
4. Each size of product must be tested one by one after completing production and provide quality report.
5. The most important point, we are the entity factory, not trading company. Price is the composition of the actual product quality price. Quality can guarantee more controllable higher than trading company. The price is competitive, at least reducing the trade company's service fee.
6. We have many years of export experience, exports to the US, Europe, Japan and other countries and regions.
7. Our team are more professional. We have more reasonable price and better quality controlling than trade company. And our language ability is also diversified.

High Precision

**5-Axis CNC & Imported machines
with accuracy $\pm 0.02-0.10\text{mm}$**

Fast Lead Time

**Multiple CNC machines, skillful
workers, guarantee fast lead time**

Strictly Confidential

**We will protect the customers' design
and the customer can request a
confidentiality agreement**

Quality Inspection

**We have a strict quality inspection
process to ensure the quality of our
products**

Factory Equipment

WEDM

Milling Machine

CNC Wire Cut

Coordinate measuring machine

CNC Bending Machine

Hydraulic Press Machine

SLS/SLA Machine

5-Axis CNC

CNC Lathe

Laser cutting Machine

CNC Punching Machine

Injection Molding machine

FAQ

Q1: Where can I get product & price information?

A1: Send us inquiry e-mail, we will contact you as we receive your mail.

Q2: How long can I get the sample?

A2: Depends on your specific items, within 3-7 days is required generally.

Q3: What kinds of information you need for quote?

A3: Kindly please provide the product drawing in PDF, and will be better you can provide in STEP or IGS.

Q4: What are the payment terms?

A4: We accept 50% as payment deposit, when the goods is done, we take photos for your check and you then pay the balance.

Q5: Are you a trading company or factory?

A5: We are direct factory with 10 experienced engineers and more than 650 employees as well approximate 2,000 square ft. workshop area.

Q6: What shall we do if we do not have drawings?

A6: Please send your sample to our factory, then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions (Length, Height, Width), CAD or 3D file will be made for you if placed order.
