

## Custom OEM Aluminum SS Brass CNC Machining Parts Plastic CNC Metal Machining Accessories Manufacturer

Our Product Introduction

for more products please visit us on [cnc-metalmachining.com](http://cnc-metalmachining.com)

### Basic Information

- Place of Origin: Shenzhen China
- Brand Name: Xiange
- Certification: ISO9001:2015
- Model Number: CNC-XG-062
- Minimum Order Quantity: 1 pcs
- Price: USD \$0.1-\$1.99
- Packaging Details: Carton, As Customers'packaging requirements
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 10000 pcs per week

### Product Specification

- Application: Automotive, Aerospace, Medical, Etc.
- Drawing Format: CAD, PDF, JPG, Etc.
- Inspection: 100% Inspection Before Shipment
- Lead Time: 7-15 Days
- MOQ: 1 Piece
- Material: Metal
- Package: Carton Box, Wooden Box, Etc.
- Payment Term: T/T, L/C, PayPal, Etc.
- Process: CNC Machining
- Size: Customized
- Surface Treatment: Polishing, Sandblasting, Anodizing, Etc.
- Tolerance:  $\pm 0.005\text{mm}$
- Transport: By Air, By Sea, By Express, Etc.
- Highlight: **Brass CNC Metal Machining Parts, Custom OEM CNC Metal Machining Parts,**

## Product Description

### What We Can Provide

Custom OEM PA POM PVC CNC Machining Parts Plastic CNC Metal Machining Accessories Manufacturer

#### Description Of Customized High Quality OEM CNC Machining Service Plastic CNC Machining Accessories Manufacturer

Customized High-Quality OEM CNC Machining Service, specializing in Plastic CNC Machining Accessories, is a supplier that offers tailored solutions to meet the unique requirements of clients across various industries. This service provider utilizes advanced Computer Numerical Control (CNC) machining technology to precisely create plastic components and accessories with exceptional precision and quality.

At the core of this service lies the ability to accept custom designs and specifications from clients, ensuring that every product is made to fit specific needs. The OEM (Original Equipment Manufacturer) aspect signifies that the service provider acts as a direct manufacturer, offering a one-stop-shop for design, production, and supply of plastic CNC machined parts.

**Design Consultation:** The client collaborates with the supplier's design team to discuss the project requirements, specifications, and any unique design features. This phase ensures that the final product aligns perfectly with the client's vision.

**CAD/CAM Programming:** Utilizing Computer-Aided Design (CAD) software, the supplier creates detailed 3D models of the components. These models are then converted into machine-readable instructions using Computer-Aided Manufacturing (CAM) software, preparing them for the CNC machining process.

**Material Selection:** High-quality plastic materials, such as ABS, nylon, acetal, or polycarbonate, are carefully chosen based on the application's requirements, ensuring durability, strength, and performance.

**CNC Machining:** The CNC machines, under the guidance of the pre-programmed instructions, precisely cut, drill, mill, or turn the plastic material into the desired shape and size. This process guarantees exceptional accuracy and repeatability.

#### Material Of Customized High Quality OEM CNC Machining Service Plastic CNC Machining Accessories Manufacturer

<b>Processing</b>	CNC Turning, CNC Milling, Laser Cutting, Bending, Spinning, Wire Cutting, Stamping, Electric Discharge Machining (EDM), Injection Molding
<b>Materials</b>	Aluminum: 2000 series, 6000 series, 7075, 5052, etc.
	Stainless steel: SUS303, SUS304, SS316, SS316L, 17-4PH, etc.
	Steel: 1214L/1215/1045/4140/SCM440/40CrMo, etc.
	Brass: 260, C360, H59, H60, H62, H63, H65, H68, H70, Bronze, Copper
	Titanium: Grade F1-F5
	Plastic: Acetal/POM/PA/Nylon/PC/PMMA/PVC/PU/Acrylic/ABS/PTFE/PEEK etc.
<b>Surface Treatment</b>	Anodized, Bead Blasted, Silk Screen, PVD Plating, Zinc/Nickel/Chrome/Titanium Plating, Brushing, Painting, Powder Coated, Passivation, Electrophoresis, Electro Polishing, Knurl, Laser/Etch/Engrave etc.
<b>Tolerance</b>	±0.002 ~ ±0.005mm
<b>Surface Roughness</b>	Min Ra 0.1~3.2

#### Application Of Customized High Quality OEM CNC Machining Service Plastic CNC Machining Accessories Manufacturer

1. Computers and Laptops: Skived heatsinks are widely used in computer processors, graphics cards, and other internal components to dissipate heat generated during intense computing tasks. They help prevent overheating and maintain optimal performance.
2. LED Lighting: LED lights generate heat, and efficient cooling is essential to maintain their longevity and brightness. Skived heatsinks are used in various LED lighting applications, including residential, commercial, and automotive lighting systems.
3. Audio Amplifiers: High-power audio amplifiers generate significant heat during operation. Skived heatsinks are employed to cool down the amplifier circuitry, ensuring stable performance and minimizing distortion.

#### Features Of Customized High Quality OEM CNC Machining Service Plastic CNC Machining Accessories Manufacturer

1. Efficient Heat Dissipation: Aluminum is a highly efficient conductor of heat, and skived heatsinks are designed to maximize the surface area for heat dissipation. The skived fin structure enhances the heatsink's ability to transfer heat away from the electronic components.

2. Thin and Lightweight: Skived heatsinks are manufactured using a precision machining process that allows for the creation of thin and lightweight fins. This design makes them suitable for applications where space and weight are critical considerations.

3. Customizable Fin Geometry: The skiving process allows for the creation of intricate and customizable fin geometries, which can be tailored to specific thermal requirements and airflow conditions. This flexibility ensures optimal performance for various applications.

## Why Choose Us

### Advantages

1. Quality control: the defective products rate is 0.1%. Imported material 100%.
2. Reasonable price. Precision made. Experience & reasonable QC that you can rely on.
3. Each part would be given 100% test and tryout before shipment.
4. Adequate supply capacity. Punctual delivery time.

### High Precision

**5-Axis CNC & Imported machines  
with accuracy  $\pm 0.02-0.10\text{mm}$**

### Fast Lead Time

**Multiple CNC machines, skillful  
workers, guarantee fast lead time**

### Strictly Confidential

**We will protect the customers' design  
and the customer can request a  
confidentiality agreement**

### Quality Inspection

**We have a strict quality inspection  
process to ensure the quality of our  
products**

# Factory Equipment

## FAQ

Q: How can I customize my products ?

A: Please describe your project. Include the following information so that we can provide an accurate quote: Part Name, 3D CAD Drawing, Quantity, Material, Color, Finishing.

Q: How can I know my products going on ?

A: We will offer a detailed production schedule and send weekly reports with digital pictures and videos which show the production process.

Q: Can You sign a confidentiality greement ?

A: We can sign a confidentiality agreement according to your needs.

Q: What is your terms of payment ?

A: 30% in advance ,70% balance before shipment. Other terms negotiable.

Q: Are you a trading company or factory?

A: We are direct factory with 20 experienced engineers and more than 80 employees as well approximate 3,000 square meters workshop area.

Q: What shall we do if we do not have drawings?

A: Please send your sample to our factory,then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions(Length, Height, Width), CAD or 3D file will be made for you if placed order.
