

## OEM Metal CNC Machining Parts Customized For Aluminum SS Brass

Our Product Introduction

for more products please visit us on [cnc-metalmachining.com](http://cnc-metalmachining.com)

### Basic Information

- Place of Origin: Shenzhen China
- Brand Name: Xianheng
- Certification: ISO9001:2015
- Model Number: CNC-XG-065
- Minimum Order Quantity: 1 pcs
- Price: USD \$0.1-\$1.99
- Packaging Details: Carton, As Customers'packaging requirements
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 10000 pcs per week

### Product Specification

- Application: Automotive, Aerospace, Medical, Etc.
- Drawing Format: CAD, PDF, JPG, Etc.
- Inspection: 100% Inspection Before Shipment
- Lead Time: 7-15 Days
- MOQ: 1 Piece
- Material: Metal
- Package: Carton Box, Wooden Box, Etc.
- Payment Term: T/T, L/C, PayPal, Etc.
- Process: CNC Machining
- Size: Customized
- Surface Treatment: Polishing, Sandblasting, Anodizing, Etc.
- Tolerance:  $\pm 0.005\text{mm}$
- Transport: By Air, By Sea, By Express, Etc.
- Highlight: **OEM Aluminum CNC Machining Parts, Brass CNC Machining Parts, SS CNC Machining Parts**

## Product Description

### What We Can Provide

Custom OEM Aluminum SS Brass CNC Machining Parts CNC Metal Custom CNC Machining Parts Manufacturer

#### Description Of Customized High Quality OEM CNC Machining Service Plastic Custom CNC Machining Parts Manufacturer

A Customized High Quality OEM CNC Machining Service is a specialized service that caters to the unique needs of clients who require precision-made plastic parts. OEM, or Original Equipment Manufacturer, refers to a company that produces parts or equipment that may be marketed by another company as their own brand. In this context, the service focuses on designing and manufacturing customized plastic CNC machining parts tailored to the specifications provided by the client.

CNC, which stands for Computer Numerical Control, is a machining process that involves the use of computers to control the movement of tools that cut, shape, and drill materials. In plastic CNC machining, high-speed rotary cutting tools are precisely guided by computer software to remove material from a solid block of plastic, transforming it into the desired shape and size.

A manufacturer offering this service has the capability to design, prototype, and produce plastic parts in small or large quantities, all while maintaining a high level of quality and precision. This is achieved through advanced technologies, such as CAD (Computer-Aided Design) software for designing parts, CAM (Computer-Aided Manufacturing) software for programming the CNC machines, and high-precision CNC machines capable of handling a wide range of plastic materials.

#### Material Of Customized High Quality OEM CNC Machining Service Plastic Custom CNC Machining Parts Manufacturer

<b>Processing</b>	CNC Turning, CNC Milling, Laser Cutting, Bending, Spinning, Wire Cutting, Stamping, Electric Discharge Machining (EDM), Injection Molding
<b>Materials</b>	Aluminum: 2000 series, 6000 series, 7075, 5052, etc.
	Stainless steel: SUS303, SUS304, SS316, SS316L, 17-4PH, etc.
	Steel: 1214L/1215/1045/4140/SCM440/40CrMo, etc.
	Brass: 260, C360, H59, H60, H62, H63, H65, H68, H70, Bronze, Copper
	Titanium: Grade F1-F5
	Plastic: Acetal/POM/PA/Nylon/PC/PMMA/PVC/PU/Acrylic/ABS/PTFE/PEEK etc.
<b>Surface Treatment</b>	Anodized, Bead Blasted, Silk Screen, PVD Plating, Zinc/Nickel/Chrome/Titanium Plating, Brushing, Painting, Powder Coated, Passivation, Electrophoresis, Electro Polishing, Knurl, Laser/Etch/Engrave etc.
<b>Tolerance</b>	±0.002 ~ ±0.005mm
<b>Surface Roughness</b>	Min Ra 0.1~3.2

#### Application Of Customized High Quality OEM CNC Machining Service Plastic Custom CNC Machining Parts Manufacturer

1. Computers and Laptops: Skived heatsinks are widely used in computer processors, graphics cards, and other internal components to dissipate heat generated during intense computing tasks. They help prevent overheating and maintain optimal performance.
2. LED Lighting: LED lights generate heat, and efficient cooling is essential to maintain their longevity and brightness. Skived heatsinks are used in various LED lighting applications, including residential, commercial, and automotive lighting systems.
3. Audio Amplifiers: High-power audio amplifiers generate significant heat during operation. Skived heatsinks are employed to cool down the amplifier circuitry, ensuring stable performance and minimizing distortion.

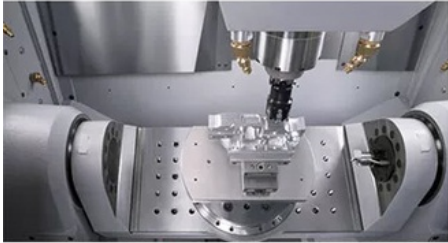

#### Features Of Customized High Quality OEM CNC Machining Service Plastic Custom CNC Machining Parts Manufacturer

1. Efficient Heat Dissipation: Aluminum is a highly efficient conductor of heat, and skived heatsinks are designed to maximize the surface area for heat dissipation. The skived fin structure enhances the heatsink's ability to transfer heat away from the electronic components.
2. Thin and Lightweight: Skived heatsinks are manufactured using a precision machining process that allows for the creation of thin and lightweight fins. This design makes them suitable for applications where space and weight are critical considerations.
3. Customizable Fin Geometry: The skiving process allows for the creation of intricate and customizable fin geometries, which can be tailored to specific thermal requirements and airflow conditions. This flexibility ensures optimal performance for various applications.

## Why Choose Us

### Advantages

1. Quality control: the defective products rate is 0.1%. Imported material 100%.
2. Reasonable price. Precision made. Experience & reasonable QC that you can rely on.
3. Each part would be given 100% test and tryout before shipment.
4. Adequate supply capacity. Punctual delivery time.

### High Precision

**5-Axis CNC & Imported machines  
with accuracy  $\pm 0.02-0.10\text{mm}$**

### Fast Lead Time

**Multiple CNC machines, skillful  
workers, guarantee fast lead time**

### Strictly Confidential

**We will protect the customers' design  
and the customer can request a  
confidentiality agreement**

### Quality Inspection

**We have a strict quality inspection  
process to ensure the quality of our  
products**

# Factory Equipment

WEDM

Milling Machine

CNC Wire Cut

Coordinate measuring machine

CNC Bending Machine

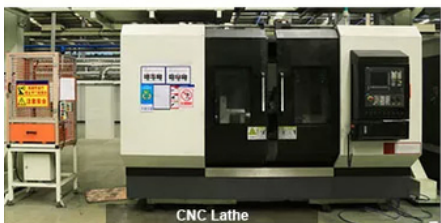

Hydraulic Press Machine

SLS/SLA Machine

5-Axis CNC

CNC Lathe

Laser cutting Machine

CNC Punching Machine

Injection Molding machine

### FAQ

Q: How can I customize my products ?

A: Please describe your project. Include the following information so that we can provide an accurate quote: Part Name, 3D CAD Drawing, Quantity, Material, Color, Finishing.

Q: How can I know my products going on ?

A: We will offer a detailed production schedule and send weekly reports with digital pictures and videos which show the production process.

Q: Can You sign a confidentiality greement ?

A: We can sign a confidentiality agreement according to your needs.

Q: What is your terms of payment ?

A: 30% in advance ,70% balance before shipment. Other terms negotiable.

Q: Are you a trading company or factory?

A: We are direct factory with 20 experienced engineers and more than 80 employees as well approximate 3,000 square meters workshop area.

Q: What shall we do if we do not have drawings?

A: Please send your sample to our factory,then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions(Length, Height, Width), CAD or 3D file will be made for you if placed order.
