

Custom Metal Frame Parts Small Box Case Enclosure Sheet Metal Fabrication Stamping Bending Frames Manufacturer

Our Product Introduction

for more products please visit us on cnc-metalmachining.com

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: Xianheng
- Certification: ISO9001:2015
- Model Number: MFA-XG-066
- Minimum Order Quantity: 1 pcs
- Price: USD \$0.1-\$1.99
- Packaging Details: Carton, As Customers' packaging requirements
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 50000 pcs per week

Product Specification

- Supply Type: OEM Service
- Material Capabilities: Stainless Steel, Brass, Aluminum, Steel
- Process: Bending, Laser Cutting, Welding, Stamping
- Application: Auto, motorcycle, industry, agriculture, furniture, etc.
- Packing Details: Carton, Wooden Case, Plastic Cargo
- Color: Black, Silver, Customized Color
- Place Of Origin: China
- Highlight: **Stamping Bending Metal Frame Parts, Sheet Metal Fabrication Metal Frame Parts, Custom Metal Frame Parts**

Product Description

What We Can Provide

Custom Metal Frame Parts Small Box Case Enclosure Sheet Metal Fabrication Stamping Bending Frames Manufacturer

Description Of Customized OEM Metal Frame Welding Quality Sheet Metal Fabrication Bending Stamping Frames Manufacturer

A Customized OEM Metal Frame Welding Quality Sheet Metal Fabrication Bending Stamping Frames Manufacturer is a company that specializes in the production of custom-made metal frames and components through a combination of welding, sheet metal fabrication, bending, and stamping processes. This type of manufacturer is capable of producing high-quality, precision-made metal frames and components that meet the specific needs and requirements of its customers.

The manufacturing process typically begins with the design and engineering of the metal frame or component. The manufacturer's team of engineers and designers work closely with the customer to understand their needs and develop a custom solution. Once the design is finalized, the manufacturing process begins with the selection of the appropriate metal material, which can include stainless steel, aluminum, brass, copper, and other alloys.

Sheet metal fabrication is a key step in the process, as it involves cutting, shaping, and forming the metal sheet into the desired shape and size. This can be done using a variety of techniques, including punching, shearing, and CNC machining. The fabricated metal sheet is then ready for the welding, bending, and stamping processes.

Welding is used to join multiple pieces of metal together to form the final frame or component. The manufacturer's team of skilled welders use advanced welding techniques and equipment to ensure that the welds are strong, durable, and of high quality.

Bending is used to create specific angles or curves in the metal frame or component. The manufacturer's bending equipment is capable of accurately bending the metal to the desired angle, ensuring that the final product meets the customer's specifications.

Material Of Customized OEM Metal Frame Welding Quality Sheet Metal Fabrication Bending Stamping Frames Manufacturer

Production Capability

Secondary Operations

Surface Operations	<ul style="list-style-type: none"> * Deburring work by machines, then by hands; * As long as you need no scratches on the products, we can use the film protected material for products during production; * Remove sharps of the products; * Ultrasonic cleaning after production.
Surface Treatments	Powder Coating, Polishing, Brushing, PVD Plating, PVC Coating, Ceramic Coating, Chrome Plating, Nickel Plating, Tin Plating, Copper Plating, Silver Plating, Sandblasting, Anodizing, Dacromet, Baking Varnish, Electrophoresis Coating, Zinc Plating, Hot Dip Galvanizing.
LOGO Printing	Laser Engraving, Silk-screening etc
Assembly Service	Yolanda provide products assembly service after each component production.
Custom Packaging	<ul style="list-style-type: none"> * Design packaging according to your products; * Make the packagings according to your requests; * Print your LOGO on the packaging as long as you need; * Other request according to your need.

Application Of Customized OEM Metal Frame Welding Quality Sheet Metal Fabrication Bending Stamping Frames Manufacturer

1. Construction: Metal angle brackets are extensively used in the construction industry for connecting beams, joists, and rafters. They provide critical support and reinforcement to building structures, ensuring stability and load distribution.
2. Shelving: Angle brackets are widely used as shelf supports for wall-mounted shelves in homes, offices, retail stores, and warehouses. They help create sturdy and reliable shelving systems.
3. Furniture Assembly: Metal angle brackets are essential in furniture assembly, helping to connect components and reinforcing joints in tables, chairs, cabinets, and bed frames.

Quality Control

1. Checking the raw material after they reach our factory----- Incoming quality control (IQC)
2. Checking the details before the production line operated

3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
4. Checking the goods after they are finished---- Final quality control(FQC)
5. Checking the goods after they are finished-----Outgoing quality control(OQC)

Why Choose Us

Advantages

1. Quality control: the defective products rate is 0.1%. Imported material 100%.
2. Reasonable price. Precision made. Experience & reasonable QC that you can rely on.
3. Each part would be given 100% test and tryout before shipment.
4. Adequate supply capacity. Punctual delivery time.

Aluminum Material

Material:

Aluminum 5052
Aluminum 6061
Aluminum 6063 etc

Finish:

Anodic Oxidation
Polishing
Powder Coating
Spray Painting

Why Choose Us

Multiple Machines

5-Axis CNC & Imp Professional machines, skillful workers, machines, skillful
with accuracy of guarantee the quality and lead time. guarantee fast lead time

Strictly Confidential

We will protect the customers' design
and the customer can request a
confidentiality agreement

Quality Inspection

We have a strict quality inspection
process to ensure the quality of our
products

Factory Show

Factory Equipment

CNC Wire Cut

Coordinate measuring machine

CNC Bending Machine

Hydraulic Press Machine

SLS/SLA Machine

5-Axis CNC

CNC Lathe

Laser cutting Machine

CNC Punching Machine

Injection Molding machine

FAQ

1. How can I get the price? - We usually quote within 24 hours after we get your inquiry (except weekend and holidays). If you are urgent to get the price, please email us or contact us in other ways so that we can offer you a quote.
2. Can I buy samples? - Yes. Please feel free to contact us.
3. What is your lead time? - It depends on the order quantity and the season you place the order. Usually we can ship within 7-15 days for small quantity, and about 30 days for large quantity.
4. What is your payment term? - T/T, Western Union, MoneyGram, and Paypal. This is negotiable.
5. What is the shipping method? - It could be shipped by sea, by air, or by express (EMS, UPS, DHL, TNT, FEDEX etc). Please confirm with us before placing orders.
6. How do you make our business long-term and good relationship? - We keep good quality and competitive price to ensure our customers benefit. Furthermore, we respect every customer as our friend and we sincerely do business and make friends with them, no matter where they come from.
