

High Precision Custom Sheet Metal Fabrication OEM Laser Cutting Copper Stainless Steel Anodised Aluminum Bending Parts

Our Product Introduction

for more products please visit us on cnc-metalmachining.com

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: Xianheng
- Certification: ISO9001:2015
- Model Number: PMS-XG-063
- Minimum Order Quantity: 1 pcs
- Price: USD \$0.1-\$1.99
- Packaging Details: Carton, As Customers' packaging requirements
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 50000 pcs per week

Product Specification

- Material: Copper, Stainless Steel, Aluminum, Brass, Etc.
- Surface Treatment: Hot Galvanized, Zinc Plating, Nickel Plating, Powder Plating, Anodize
- Process: Stamping, Punching, Bending, Punching Of Stamping Blanks, Stamping + CNC
- Application: Construction, Industrial, Used Widely Industry Auto, Mechanical Equipment, Auto Parts
- Service: OEM/ODM, OEM ODM Metal Stamping, Customized OEM OEM ODM, OEM Service
- Tolerance: 0.01mm, 0.05 Mm, +/-0.005, 0.003-0.05mm
- Oem: Available
- Quality: ISO9001
- Keywords: Custom Stamping Metal
- Packing: As Customers' Requirement
- Highlight: **Anodised Aluminum Bending Parts,**

Product Description

What We Can Provide

Custom Sheet Metal Fabrication OEM Laser Cutting Copper Stainless Steel Anodised Aluminum Bending Parts Manufacturer

Description of Custom Sheet Metal Fabrication OEM Laser Cutting Copper Stainless Steel Anodised Aluminum Bending Parts Manufacturer

A Custom Sheet Metal Fabrication OEM Laser Cutting Copper Stainless Steel Anodised Aluminum Bending Parts Manufacturer is a specialized entity that offers tailored sheet metal fabrication services, employing advanced laser cutting technology to produce precision parts from materials such as copper, stainless steel, and anodized aluminum. These manufacturers are equipped with the expertise and capabilities to handle a wide range of custom requirements, ensuring high-quality output for various industrial and commercial applications.

Custom Sheet Metal Fabrication

These manufacturers specialize in creating custom sheet metal parts according to clients' specific designs and specifications. They utilize state-of-the-art machinery and equipment to ensure precision and accuracy in fabrication.

OEM Laser Cutting

Laser cutting is a key technology employed by these manufacturers for precision cutting of sheet metal.

The process involves using a high-powered laser beam to cut through the material with extreme precision, resulting in clean and accurate cuts.

This technology allows for the production of intricate designs and shapes that would be difficult to achieve with traditional cutting methods.

Material Expertise

These manufacturers have extensive experience working with a variety of materials, including copper, stainless steel, and anodized aluminum.

They understand the unique properties and characteristics of these materials and can tailor their fabrication processes accordingly.

Specification of Custom Sheet Metal Fabrication OEM Laser Cutting Copper Stainless Steel Anodised Aluminum Bending Parts Manufacturer

| | |
|-------------------|--|
| Name | Custom OEM Laser Cutting Sheet Metal Fabrication Services Copper Stainless Steel Anodised Aluminum Metal Stamping bending Parts |
| Material | Zn-plating, Ni-plating, Cr-plating, Tin-plating, copper-plating, the wreath oxygen resin spraying, the heat disposing, hot-dip galvanizing, black oxide coating, painting, powdering, color zinc-plated, blue black zinc-plated, rust preventive oil, titanium alloy galvanized, silver plating, plastic, electroplating, anodizing etc. |
| Applications | Automotive, instrument, electrical equipment, household appliances, furniture, mechanical equipment, daily living equipment, electronic sports equipment, light industry products, sanitation machinery, market/ hotel equipment supplies, artware etc. |
| Packaging | Regular: Paper, Foam, OPP bag, Carton; Other: According to customers' requirements |
| Testing Equipment | Projecting apparatus, Salt Spray Test, Durometer, and Coating thickness tester |
| Tolerance | ±0.01-0.05mm |
| Drawing | JPG, PDF, CAD, DWG, STP, STEP |

Quality Control

1. Checking the raw material after they reach our factory----- Incoming quality control (IQC)
2. Checking the details before the production line operated
3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
4. Checking the goods after they are finished---- Final quality control(FQC)
5. Checking the goods after they are finished-----Outgoing quality control(OQC)

Application Of Custom Sheet Metal Fabrication OEM Laser Cutting Copper Stainless Steel Anodised Aluminum Bending Parts Manufacturer

1. Auto Components Hardware Parts Auto Parts
2. Communication Equipment
3. Industrial Equipment
4. Medical EquipmentsMechanical Parts
5. Ship Accessories
6. Electrical Equipment
7. Mechanical Equipment

Why Choose Us

Advantages

1. Quality control: the defective products rate is 0.1%. Imported material 100%.
2. Reasonable price. Precision made. Experience & reasonable QC that you can rely on.
3. Each part would be given 100% test and tryout before shipment.
4. Adequate supply capacity. Punctual delivery time.

Multiple Machines

5-Axis CNC & Import Professional machines, skillful workers, machines, skillful workers, guarantee the quality and lead time. with accuracy & fast lead time

Strictly Confidential

We will protect the customers' design and the customer can request a confidentiality agreement

Quality Inspection

We have a strict quality inspection process to ensure the quality of our products

Stainless Steel Material

Material:

Stainless Steel 201
Stainless Steel 430
Stainless Steel 304
Stainless Steel 316

Finish:

Mirror Polishing
Brush Polishing
Electro Polishing
Vibration Polishing

FAQ

Q1: Where can I get product & price information?

A1: Send us inquiry e-mail, we will contact you as we receive your mail.

Q2: How long can I get the sample?

A2: Depends on your specific items, within 3-7 days is required generally.

Q3: What kinds of information you need for quote?

A3: Kindly please provide the product drawing in PDF, and will be better you can provide in STEP or IGS.

Q4: What are the payment terms?

A4: We accept 50% as payment deposit, when the goods is done, we take photos for your check and you then pay the balance.

Q5: Are you a trading company or factory?

A5: We are direct factory with 10 experienced engineers and more than 650 employees as well approximate 2,000 square ft. workshop area.

Q6: What shall we do if we do not have drawings?

A6: Please send your sample to our factory, then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions (Length, Height, Width), CAD or 3D file will be made for you if placed order.
