

Expert Bending Stamping Services OEM Sheet Metal Shell Fabrication Laser Cutting Custom Parts Service Provider

Our Product Introduction

for more products please visit us on cnc-metalmachining.com

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: Xianheng
- Certification: ISO9001:2015
- Model Number: PMS-XG-071
- Minimum Order Quantity: 1 pcs
- Price: USD \$0.1-\$1.99
- Packaging Details: Carton, As Customers' packaging requirements
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 50000 pcs per week

Product Specification

- Material: Copper, Stainless Steel, Aluminum, Brass, Etc.
- Surface Treatment: Hot Galvanized, Zinc Plating, Nickel Plating, Powder Plating, Anodize
- Process: Stamping, Punching, Bending, Punching Of Stamping Blanks, Stamping + CNC
- Application: Construction, Industrial, Used Widely Industry Auto, Mechanical Equipment, Auto Parts
- Service: OEM/ODM, OEM ODM Metal Stamping, Customized OEM OEM ODM, OEM Service
- Tolerance: 0.01mm, 0.05 Mm, +/-0.005, 0.003-0.05mm
- Oem: Available
- Quality: ISO9001
- Keywords: Custom Stamping Metal
- Packing: As Customers' Requirement
- Highlight: Laser Cutting Sheet Metal Shell,

Product Description

What We Can Provide

Expert Bending Stamping Services OEM Sheet Metal Shell Fabrication Laser Cutting Custom Parts Service Provider

Description of Expert Bending Stamping Services OEM Sheet Metal Shell Fabrication Laser Cutting Custom Parts Service Provider

We are a leading service provider specializing in the manufacturing of precision sheet metal components and assemblies through a combination of expert bending, stamping, and laser cutting services. Our expertise lies in creating customized OEM sheet metal shells for a wide range of industries, from electronics to automotive, aerospace, and more.

Bending and Stamping Expertise:

Our bending and stamping capabilities allow us to form sheet metal into intricate shapes and sizes, tailored to meet the exact specifications of our clients. We utilize state-of-the-art machinery and techniques to ensure precise and repeatable results, offering both simple and complex bending and stamping operations to suit various applications.

OEM Sheet Metal Shell Fabrication:

As an Original Equipment Manufacturer (OEM), we specialize in the fabrication of sheet metal shells for a variety of products. Our engineering team works closely with clients to understand their specific requirements, from design and prototyping to full-scale production. We offer end-to-end solutions, including material selection, fabrication, assembly, and finishing, to ensure that each shell meets the highest standards of quality and performance.

Laser Cutting Services:

Our laser cutting services provide a precise and efficient way to cut sheet metal into complex shapes and patterns. We utilize high-power lasers and advanced software to ensure accuracy and repeatability, allowing us to produce parts with intricate details and tight tolerances. Laser cutting is ideal for a wide range of materials, including stainless steel, aluminum, and mild steel, making it a versatile option for a variety of applications.

Specification of Expert Bending Stamping Services OEM Sheet Metal Shell Fabrication Laser Cutting Custom Parts Service Provider

Name	Custom OEM Laser Cutting Sheet Metal Fabrication Services Copper Stainless Steel Anodised Aluminum Metal Stamping bending Parts
Material	Zn-plating, Ni-plating, Cr-plating, Tin-plating, copper-plating, the wreath oxygen resin spraying, the heat disposing, hot-dip galvanizing, black oxide coating, painting, powdering, color zinc-plated, blue black zinc-plated, rust preventive oil, titanium alloy galvanized, silver plating, plastic, electroplating, anodizing etc.
Applications	Automotive, instrument, electrical equipment, household appliances, furniture, mechanical equipment, daily living equipment, electronic sports equipment, light industry products, sanitation machinery, market/ hotel equipment supplies, artware etc.
Packaging	Regular: Paper, Foam, OPP bag, Carton; Other: According to customers' requirements
Testing Equipment	Projecting apparatus, Salt Spray Test, Durometer, and Coating thickness tester
Tolerance	±0.01-0.05mm
Drawing	JPG, PDF, CAD, DWG, STP, STEP

Quality Control

1. Checking the raw material after they reach our factory----- Incoming quality control (IQC)
2. Checking the details before the production line operated
3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
4. Checking the goods after they are finished---- Final quality control(FQC)
5. Checking the goods after they are finished-----Outgoing quality control(OQC)

Application Of Expert Bending Stamping Services OEM Sheet Metal Shell Fabrication Laser Cutting Custom Parts Service Provider

1. Auto Components Hardware Parts Auto Parts
2. Communication Equipment
3. Industrial Equipment
4. Medical EquipmentsMechanical Parts
5. Ship Accessories
6. Electrical Equipment
7. Mechanical Equipment

Why Choose Us

Advantages

1. Precision and Accuracy:

Laser cutting offers unmatched precision and accuracy, ensuring that each part is cut to the exact specifications required. This results in a higher quality finished product with reduced waste and rework.

2. Versatility and Flexibility:

Our laser cutting service can accommodate a wide range of materials, including stainless steel, aluminum, mild steel, and more. Additionally, the technology allows for intricate cutting patterns and shapes, making it ideal for a variety of applications and industries.

3. Efficiency and Speed:

Laser cutting is a highly efficient process, capable of producing parts at a faster rate compared to traditional cutting methods. This increased speed, combined with the precision of the laser, allows for shorter lead times and quicker delivery of finished products to our clients.

4. Cost-Effectiveness:

By utilizing laser cutting technology, we are able to reduce material waste and minimize setup time, leading to cost savings for our clients. Additionally, the precision of the laser reduces the need for secondary operations such as grinding or filing, further lowering overall production costs.

Multiple Machines

3-Axis CNC & 5-Axis CNC machines, skillful workers, machines, skillful workers, guarantee the quality and lead time.

Strictly Confidential

We will protect the customers' design and the customer can request a confidentiality agreement

Quality Inspection

We have a strict quality inspection process to ensure the quality of our products

Stainless Steel Material

Material:

Stainless Steel 201
Stainless Steel 430
Stainless Steel 304
Stainless Steel 316

Finish:

Mirror Polishing
Brush Polishing
Electro Polishing
Vibration Polishing

FAQ

Q1: Where can I get product & price information?

A1: Send us inquiry e-mail, we will contact you as we receive your mail.

Q2: How long can I get the sample?

A2: Depends on your specific items, within 3-7 days is required generally.

Q3: What kinds of information you need for quote?

A3: Kindly please provide the product drawing in PDF, and will be better you can provide in STEP or IGS.

Q4: What are the payment terms?

A4: We accept 50% as payment deposit, when the goods is done, we take photos for your check and you then pay the balance.

Q5: Are you a trading company or factory?

A5: We are direct factory with 10 experienced engineers and more than 650 employees as well approximate 2,000 square ft. workshop area.

Q6: What shall we do if we do not have drawings?

A6: Please send your sample to our factory, then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions (Length, Height, Width), CAD or 3D file will be made for you if placed order.
