

Customized Precision Components Manufacturer for OEM Stainless Steel Anodized CNC Milling Parts High Precision

Our Product Introduction

for more products please visit us on cnc-metalmachining.com

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: Xianheng
- Certification: ISO9001:2015
- Model Number: ML-CNC-071
- Minimum Order Quantity: 1 pcs
- Price: USD \$0.1-\$1.99
- Packaging Details: Carton, As Customers' packaging requirements
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 10000 pcs per week

Product Specification

- Cnc Machining Or Not: CNC Machining
- Type: CNC Milling
- Material Capabilities: Copper, Aluminum, Bronze, Stainless Steel, Brass
- Surface Treatment: Anodized, Anodizing, Anodize/natural, Sandblast, Silk-screen
- Service: OEM/ODM, OEM ODM Metal Stamping, Customized OEM OEM ODM, OEM Service
- Tolerance: 0.01mm, 0.05 Mm, +/-0.005, 0.003-0.05mm
- Application: Machinery, Automotive, Laptop, Industrial Equipment, Engineering
- Color: As Per Customers' Requirement
- Highlight: **Customized Precision CNC Milling Parts, Customized CNC Milling Parts**

Product Description

What We Can Provide

Customized Precision Components Manufacturer for OEM Stainless Steel Anodized CNC Milling Parts High Precision

Description of Customized Precision Components Manufacturer for OEM Stainless Steel Anodized CNC Milling Parts High Precision

A Customized Precision Components Manufacturer specializing in OEM (Original Equipment Manufacturer) stainless steel anodized CNC milling parts offers high-precision solutions tailored to specific client requirements.

This manufacturer specializes in producing customized precision components for various industries and applications. By leveraging advanced manufacturing techniques and technologies, they are able to create stainless steel parts that meet the highest standards of precision and quality.

The focus on OEM services means that they work closely with clients to understand their unique needs and specifications. From design and prototyping to final production, they provide comprehensive support to ensure that the finished components meet or exceed expectations.

Stainless steel is a preferred material for many applications due to its corrosion resistance, durability, and aesthetic appeal. The manufacturer uses high-quality stainless steel to produce parts that can withstand harsh environments and maintain their performance over time.

Anodizing is a process that enhances the surface properties of stainless steel parts. It creates a protective oxide layer that improves corrosion resistance, hardness, and wear resistance. This process also allows for the application of decorative finishes, such as colors and textures, to the parts.

Specification of Customized Precision Components Manufacturer for OEM Stainless Steel Anodized CNC Milling Parts High Precision

Product Name	High Quality Copper Steel Stainless Brass Material CNC Milling Parts Services
Material	Aluminum, Stainless Steel, Copper, Brass, Titanium, Galvanized, Nylon, ABS, POM etc.
Surface Treatment	Zinc Plating, Painting, Mirror Polished, Brush Polished, Powder Coating, Electroplating, Anodizing, Sandblasting etc.
Processing	Laser Cutting, Precision Stamping, Bending, CNC Punching, Threading, Riveting, Drilling, Welding, Painting, Assembly etc.
Drawing Format	3D/CAD/DWG/IGS/STEP/PDF/JPG
OEM Service	Accept

Quality Control

1. Checking the raw material after they reach our factory----- Incoming quality control (IQC)
2. Checking the details before the production line operated
3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
4. Checking the goods after they are finished---- Final quality control(FQC)
5. Checking the goods after they are finished-----Outgoing quality control(OQC)

Application Of Customized Precision Components Manufacturer for OEM Stainless Steel Anodized CNC Milling Parts High Precision

1. Auto Components Hardware Parts Auto Parts
2. Communication Equipment
3. Industrial Equipment
4. Medical EquipmentsMechanical Parts
5. Ship Accessories
6. Electrical Equipment
7. Mechanical Equipment

Why Choose Us

Our Advantages

1. Customized Solutions: This manufacturer offers tailored solutions to meet the specific needs of clients. By working closely with clients from design and prototyping to final production, they ensure that each part is produced to exact specifications, which can lead to improved performance and efficiency in the end-use application.

2. High Precision and Quality: The use of advanced manufacturing techniques, such as CNC milling, and precision measurement tools allows this manufacturer to produce parts with tight tolerances and high dimensional accuracy. This

ensures that the parts meet or exceed the required quality standards, which is crucial for applications where precision is critical.

3. Enhanced Surface Properties: The anodizing process used by this manufacturer creates a protective oxide layer on the stainless steel parts, improving their corrosion resistance, hardness, and wear resistance. Additionally, anodizing allows for the application of decorative finishes, which can enhance the visual appeal of the parts and make them more suitable for specific applications.

FAQ

Q: How can I customize my products ?

A: Please describe your project. Include the following information so that we can provide an accurate quote: Part Name, 3D CAD Drawing, Quantity, Material, Color, Finishing.

Q: How can I know my products going on ?

A: We will offer a detailed production schedule and send weekly reports with digital pictures and videos which show the production process.

Q: Can You sign a confidentiality greement ?

A: We can sign a confidentiality agreement according to your needs.

Q: What is your terms of payment ?

A: 30% in advance ,70% balance before shipment. Other terms negotiable.

Q: Are you a trading company or factory?

A: We are direct factory with 20 experienced engineers and more than 80 employees as well approximate 3,000 square meters workshop area.

Q: What shall we do if we do not have drawings?

A: Please send your sample to our factory,then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions(Length, Height, Width), CAD or 3D file will be made for you if placed order.
