

Anodize Coated Precision Metal Stamping Parts for Professional Manufacturing Applications of Custom Sheet Metal Fabrication

Our Product Introduction

for more products please visit us on cnc-metalmachining.com

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: Xianheng
- Certification: ISO9001:2015
- Model Number: PMS-XG-067
- Minimum Order Quantity: 1 pcs
- Price: USD \$0.1-\$1.99
- Packaging Details: Carton, As Customers' packaging requirements
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 50000 pcs per week

Product Specification

- Material: Copper, Stainless Steel, Aluminum, Brass, Etc.
- Surface Treatment: Hot Galvanized, Zinc Plating, Nickel Plating, Powder Plating, Anodize
- Process: Stamping, Punching, Bending, Punching Of Stamping Blanks, Stamping + CNC
- Application: Construction, Industrial, Used Widely Industry Auto, Mechanical Equipment, Auto Parts
- Service: OEM/ODM, OEM ODM Metal Stamping, Customized OEM OEM ODM, OEM Service
- Tolerance: 0.01mm, 0.05 Mm, +/-0.005, 0.003-0.05mm
- Oem: Available
- Quality: ISO9001
- Keywords: Custom Stamping Metal
- Packing: As Customers' Requirement
- Highlight: Professional Manufacturing Precision Metal

Product Description

What We Can Provide

Custom Sheet Metal Fabrication Precision Metal Stamping Parts Professional Manufacturing Applications

Description of Custom Sheet Metal Fabrication Precision Metal Stamping Parts Professional Manufacturing Applications

Custom Sheet Metal Fabrication and Precision Metal Stamping Parts are utilized in Professional Manufacturing Applications to create bespoke metal components that cater to the specific requirements of various industries. This process involves the use of advanced machinery and techniques to shape, form, and stamp sheet metal into intricate and precise parts for a wide range of professional applications.

In the realm of professional manufacturing, these parts are often used in industries such as automotive, aerospace, electronics, medical devices, and more. They are crafted to meet exact specifications, ensuring that they fit perfectly within the machinery or devices they are intended for. Precision metal stamping allows for the creation of parts with intricate details, while custom sheet metal fabrication offers the flexibility to design and produce parts that are tailored to unique needs.

Specification of Custom Sheet Metal Fabrication Precision Metal Stamping Parts Professional Manufacturing Applications

Name	Custom OEM Laser Cutting Sheet Metal Fabrication Services Copper Stainless Steel Anodised Aluminum Metal Stamping bending Parts
Material	Zn-plating, Ni-plating, Cr-plating, Tin-plating, copper-plating, the wreath oxygen resin spraying, the heat disposing, hot-dip galvanizing, black oxide coating, painting, powdering, color zinc-plated, blue black zinc-plated, rust preventive oil, titanium alloy galvanized, silver plating, plastic, electroplating, anodizing etc.
Applications	Automotive, instrument, electrical equipment, household appliances, furniture, mechanical equipment, daily living equipment, electronic sports equipment, light industry products, sanitation machinery, market/ hotel equipment supplies, artware etc.
Packaging	Regular: Paper, Foam, OPP bag, Carton; Other: According to customers' requirements
Testing Equipment	Projecting apparatus, Salt Spray Test, Durometer, and Coating thickness tester
Tolerance	±0.01-0.05mm
Drawing	JPG, PDF, CAD, DWG, STP, STEP

Quality Control

1. Checking the raw material after they reach our factory----- Incoming quality control (IQC)
2. Checking the details before the production line operated
3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
4. Checking the goods after they are finished---- Final quality control(FQC)
5. Checking the goods after they are finished-----Outgoing quality control(OQC)

Application Of Custom Sheet Metal Fabrication Precision Metal Stamping Parts Professional Manufacturing Applications

1. Auto Components Hardware Parts Auto Parts
2. Communication Equipment
3. Industrial Equipment
4. Medical EquipmentsMechanical Parts
5. Ship Accessories
6. Electrical Equipment
7. Mechanical Equipment

Why Choose Us

Our Advantages

1. High Precision and Accuracy: Precision metal stamping and custom sheet metal fabrication enable manufacturers to produce parts with exact dimensions and specifications. This high degree of precision ensures that the parts fit and function correctly within the devices or machinery they are part of, reducing the risk of malfunctions or failures.

2. Cost-Effective Production: By utilizing precision metal stamping, manufacturers can produce large quantities of parts quickly and efficiently. This reduces production costs and allows for economies of scale, making it more cost-effective to produce high-quality parts in bulk. Additionally, custom sheet metal fabrication allows for the optimization of material usage,

minimizing waste and further reducing costs.

3. Versatility and Customization: Custom sheet metal fabrication offers immense versatility and customization options. Manufacturers can design and produce parts that cater to unique needs and specifications, ensuring that they meet the specific requirements of each application. This level of customization is particularly valuable in industries where innovation and customization are key drivers of success.

Multiple Machines

5-Axis CNC & Imp Professional machines, skillful workers, machines, skillful
with accuracy of guarantee the quality and lead time.antee fast lead time

Strictly Confidential

We will protect the customers' design
and the customer can request a
confidentiality agreement

Quality Inspection

We have a strict quality inspection
process to ensure the quality of our
products

Stainless Steel Material

Material:

Stainless Steel 201
Stainless Steel 430
Stainless Steel 304
Stainless Steel 316

Finish:

Mirror Polishing
Brush Polishing
Electro Polishing
Vibration Polishing

FAQ

Q: How can I customize my products ?

A: Please describe your project. Include the following information so that we can provide an accurate quote: Part Name, 3D CAD Drawing, Quantity, Material, Color, Finishing.

Q: How can I know my products going on ?

A: We will offer a detailed production schedule and send weekly reports with digital pictures and videos which show the production process.

Q: Can You sign a confidentiality greement ?

A: We can sign a confidentiality agreement according to your needs.

Q: What is your terms of payment ?

A: 30% in advance ,70% balance before shipment. Other terms negotiable.

Q: Are you a trading company or factory?

A: We are direct factory with 20 experienced engineers and more than 80 employees as well approximate 3,000 square meters workshop area.

Q: What shall we do if we do not have drawings?

A: Please send your sample to our factory,then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions(Length, Height, Width), CAD or 3D file will be made for you if placed order.
