

## Expertly Engineered Stainless Steel CNC Parts for Industrial Applications Custom Machining Solutions

### Our Product Introduction

for more products please visit us on [cnc-metalmachining.com](http://cnc-metalmachining.com)

#### Basic Information

- Place of Origin: Shenzhen China
- Brand Name: Xianheng
- Certification: ISO9001:2015
- Model Number: ST-CNC-082
- Minimum Order Quantity: 1 pcs
- Price: USD \$0.1-\$1.99
- Packaging Details: Carton, As Customers'packaging requirements
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 10000 pcs per week

#### Product Specification

- Cnc Machining Or Not: CNC Machining
- Type: Milling, Turning, Machining
- Material Capabilities: Copper, Aluminum, Bronze, Stainless Steel, Brass
- Surface Treatment: Anodized, Anodizing, Anodize/natural, Sandblast, Silk-screen
- Application: Machinery, Automotive, Laptop, Industrial Equipment, Engineering
- Tolerance: 0.01mm, 0.05 Mm, +/-0.005, 0.003-0.05mm
- Service: Customized OEM
- Keyword: Stainless Steel Milling Parts
- Quality Control: 100% Inspection Berore Shipment, 100% Full Inspection
- Highlight: **Industrial Applications Stainless Steel CNC Parts**  
**, Custom Machining Stainless Steel CNC Parts**

## Product Description

### What We Can Provide

Expertly Engineered Stainless Steel CNC Parts for Industrial Applications Custom Machining Solutions Custom Solutions for Industrial

#### Description of Expertly Engineered Stainless Steel CNC Parts for Industrial Applications Custom Machining Solutions Supplier

Expertly Engineered Stainless Steel CNC Parts for Industrial Applications: Custom Machining Solutions are tailored precision components crafted from high-grade stainless steel using advanced Computer Numerical Control (CNC) technology. These parts are designed to meet the rigorous demands of industrial sectors such as manufacturing, automotive, aerospace, and energy, where durability, corrosion resistance, and dimensional accuracy are critical. The custom machining process allows for intricate designs, tight tolerances, and material optimization, ensuring seamless integration into complex systems. These solutions address unique challenges by offering bespoke geometries, surface finishes, and material properties that off-the-shelf components cannot match.

#### Specification of Expertly Engineered Stainless Steel CNC Parts for Industrial Applications Custom Machining Solutions Supplier

##### Custom Metal Solutions

Candle Holders/Cups	Medical Containers	Metal End Covers	Mobile Phone Shells
Crafts Stamping Parts	Tablewares	Aluminum Lids	Cabinet Enclosures
Lighting Stamping Parts	Filters/Strainers	Cosmetic Caps	Furniture Accessories
Metal Brackets/Stand	Protective Shields	Essential Oil Caps	Door&Window Fittings
Electronic Components	Sheet Metal Panels	Perfume Caps	Shafts/Sleeves/Gears
Electrical Connections	Cooling Fins	Wine Bottle Caps	Fasteners
Metal Structures	Metal Contact Clips	Jar Caps	Machinery Parts
Car Spare Parts	Motor Spare Parts	Glass Bottle Caps	Pipe Fittings/Elbows

#### Application Of Expertly Engineered Stainless Steel CNC Parts for Industrial Applications Custom Machining Solutions Supplier

1. Auto Components Hardware Parts Auto Parts
2. Communication Equipment
3. Industrial Equipment
4. Medical EquipmentsMechanical Parts
5. Ship Accessories
6. Electrical Equipment
7. Mechanical Equipment

##### Quality Control

1. Checking the raw material after they reach our factory----- Incoming quality control ( IQC)
2. Checking the details before the production line operated
3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
4. Checking the goods after they are finished---- Final quality control(FQC)
5. Checking the goods after they are finished-----Outgoing quality control(OQC)

### Why Choose Us

#### Our Advantages

##### 1. Unmatched Precision and Consistency

CNC machining ensures each part adheres to exact specifications with minimal deviation, eliminating human error and delivering uniform quality across batches. This precision is vital for applications requiring tight tolerances, such as hydraulic systems or medical devices, where even slight variations can compromise performance.

##### 2. Enhanced Durability and Corrosion Resistance

Stainless steel's inherent strength and resistance to rust, chemicals, and extreme temperatures make these parts ideal for harsh industrial environments. They withstand wear, vibration, and corrosive substances, reducing maintenance needs and extending equipment lifespan—a cost-effective choice for long-term reliability.

##### 3. Customization for Optimal Performance

Tailored designs enable engineers to optimize part functionality for specific applications. Whether integrating unique features, reducing weight, or improving fluid dynamics, custom CNC solutions address niche requirements that improve efficiency,

reduce assembly complexity, and unlock innovation in industrial workflows.

## Factory Show

# Factory Equipment

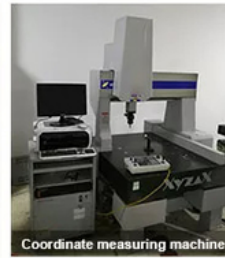

WEDM

Milling Machine

CNC Wire Cut

CNC Bending Machine

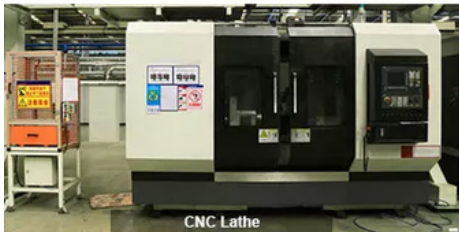

Hydraulic Press Machine

SLS/SLA Machine

5-Axis CNC

CNC Lathe

Laser cutting Machine

CNC Punching Machine

Injection Molding machine

## FAQ

### Q1: Where can I get product & price information?

A1: Send us inquiry e-mail, we will contact you as we receive your mail.

### Q2: How long can I get the sample?

A2: Depends on your specific items, within 3-7 days is required generally.

### Q3: What kinds of information you need for quote?

A3: Kindly please provide the product drawing in PDF, and will be better you can provide in STEP or IGS.

### Q4: What are the payment terms?

A4: We accept 50% as payment deposit, when the goods is done, we take photos for your check and you then pay the balance.

### Q5: Are you a trading company or factory?

A5: We are direct factory with 10 experienced engineers and more than 650 employees as well approximate 2,000 square ft. workshop area.

### Q6: What shall we do if we do not have drawings?

A6: Please send your sample to our factory, then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions (Length, Height, Width), CAD or 3D file will be made for you if placed order.
