Product Description

What We Can Provide

Metal Frame Parts Custom Metal Frame Welding Sheet Metal Fabrication Bending Stamping Frames for Customer Requirements

Description Of Metal Frame Parts Custom Metal Frame Welding Sheet Metal Fabrication Bending Stamping Frames for Customer Requirements

Custom metal frame solutions involve designing, fabricating, and assembling tailored metal structures to meet specific customer needs. This process integrates welding, sheet metal fabrication, bending, and stamping techniques to create robust, precision-engineered frames for industrial, commercial, or consumer applications.

Material Of Metal Frame Parts Custom Metal Frame Welding Sheet Metal Fabrication Bending Stamping Frames for Customer Requirements

Production Capability

Secondary Operations					
Surface Operations	 * Deburring work by machines, then by hands; * As long as you need no scratches on the products, we can use the film protected material for products during production; * Remove sharps of the products; * Ultrasonic cleaning after production. 				
Surface Treatments	Powder Coating, Polishing, Brushing, PVD Plating, PVC Coating, Ceramic Coating, Chrome Plating, Nickel Plating, Tin Plating, Copper Plating, Silver Plating, Sandblasting, Anodizing, Dacromet, Baking Varnish, Electrophoresis Coating, Zinc Plating, Hot Dip Galvanizing.				
LOGO Printing	Laser Engraving, Silk-screening etc				
Assembly Service	Yolanda provide products assembly service after each component production.				
Custom Packaging	 * Design packaging according to your products; * Make the packagings according to your requests; * Print your LOGO on the packaging as long as you need; * Other request according to your need. 				

Application Of Metal Frame Parts Custom Metal Frame Welding Sheet Metal Fabrication Bending Stamping Frames for Customer Requirements

1. Construction: Metal angle brackets are extensively used in the construction industry for connecting beams, joists, and rafters. They provide critical support and reinforcement to building structures, ensuring stability and load distribution.

2. Shelving: Angle brackets are widely used as shelf supports for wall-mounted shelves in homes, offices, retail stores, and warehouses. They help create sturdy and reliable shelving systems.

3. Furniture Assembly: Metal angle brackets are essential in furniture assembly, helping to connect components and reinforcing joints in tables, chairs, cabinets, and bed frames.

Quality Control

- 1. Checking the raw material after they reach our factory------ Incoming quality control (IQC)
- 2. Checking the details before the production line operated
- 3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
- 4. Checking the goods after they are finished---- Final quality control(FQC)
- 5. Checking the goods after they are finished-----Outgoing quality control(OQC)

Why Choose Us

Advantages

1. Tailored Design Flexibility

Custom frames are engineered to exact specifications, accommodating unique shapes, sizes, and load requirements. Enables integration of specialized features (e.g., mounting points, ventilation slots, or aesthetic finishes).

2. High Strength & Durability

Welding and precision fabrication ensure structural rigidity, reducing vibration, wear, and failure risks. Resistant to harsh environments, extreme temperatures, and mechanical stress, extending product lifespan.

3. Cost-Effective Production & Scalability

Optimized material usage minimizes waste, lowering production costs.

Stamping and automated bending processes enable efficient high-volume manufacturing without compromising quality. Short lead times for prototypes and scalable production for mass manufacturing.

Multipe Machines

Professional machines, skillful workers, guarantee the quality and lead time.

Strictly Confidential

We will protect the customers'design and the customer can request a confidentiality agreement

- The

Quality Inspection

We have a strict quality inspection process to ensure the quality of our products

FAQ

1. How can I get the price? - We usually quote within 24 hours after we get your inquiry (except weekend and holidays). If you are urgent to get the price, please email us or contact us in other ways so that we can offer you a quote.

2. Can I buy samples? - Yes. Please feel free to contact us.

3. What is your lead time? - It depends on the order quantity and the season you place the order. Usually we can ship within 7-15 days for small quantity, and about 30 days for large quantity.

4. What is your payment term? - T/T, Western Union, MoneyGram, and Paypal. This is negotiable.

5. What is the shipping method? - It could be shipped by sea, by air, or by express (EMS, UPS, DHL, TNT, FEDEX etc). Please confirm with us before placing orders.

6. How do you make our business long-term and good relationship? - We keep good quality and competitive price to ensure our customers benefit. Furthermore, we respect every customer as our friend and we sincerely do business and make friends with them, no matter where they come from.
