

Customized High Precision Brass CNC Parts for High-Precision Metal Machining Services Brass Parts Supplier

Our Product Introduction

for more products please visit us on cnc-metalmachining.com

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: Xianheng
- Certification: ISO9001:2015
- Model Number: BS-CNC-067
- Minimum Order Quantity: 1 pcs
- Price: USD \$0.1-\$1.99
- Packaging Details: Carton, As Customers' packaging requirements
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 10000 pcs per week

Product Specification

- Cnc Machining Or Not: CNC Machining
- Type: Milling, Turning, Machining
- Material Capabilities: Copper, Aluminum, Bronze, Stainless Steel, Brass
- Surface Treatment: Anodized, Anodizing, Anodize/natural, Sandblast, Silk-screen
- Application: Machinery, Automotive, Laptop, Industrial Equipment, Engineering
- Tolerance: 0.01mm, 0.05 Mm, +/-0.005, 0.003-0.05mm
- Service: OEM/ODM, OEM ODM Metal Stamping, Customized OEM OEM ODM, OEM Service
- Color: As Per Customers' Requirement
- Keyword: CNC Milling Brass Parts
- Sample: Acceptable

Product Description

What We Can Provide

Customized High Precision Brass CNC Parts for High-Precision Metal Machining Services Brass Parts Supplier

Description of Customized High Precision Brass CNC Parts for High-Precision Metal Machining Services Brass Parts Supplier

Customized high - precision brass CNC parts are precision - engineered components crafted using Computer Numerical Control (CNC) machining techniques, specifically tailored to meet the unique requirements of customers in various industries. As a brass parts supplier specializing in high - precision metal machining services, we leverage advanced CNC machinery and skilled craftsmanship to produce brass parts with exceptional accuracy, consistency, and quality.

Specification of Customized High Precision Brass CNC Parts for High-Precision Metal Machining Services Brass Parts Supplier

Business Type	CNC Machined Parts Factory / Manufacturer
Service	1. CNC Machining 2. Turning and Milling 3. CNC Turning 4. OEM Parts
Material	Aluminum: 5052,6061, 6063, 6082,7075-T etc 2. Steel: 4140, Q235, Q345B, etc. 3.Titanium: TA1,TA2/GR2, TA4/GR5, TC4, TC18,etc. 4.Stainless steel: 303,304,316L, etc. 5.Brass: C36000 , C37700 , C26800, C22000 etc 6.Plastic:Pom,ABS,Nylon,etc.
Main Equipment	CNC Machining center(Milling), CNC Lathe, Grinding machine
Treatment	Sandblasting, Anodize color, Blackening, Zinc/Nickl Plating, Polish,,Passivation PVD, Titanium Plating,Electrogalvanizing,electroplating chromium, electrophoresis, QPQ(Quench-Polish-Quench),Electro Polishing,Chrome Plating, Knurl,Power coating,Laser etch Logo,
Tolerance	±0.01mm~±0.05mm
Drawing format	STEP,STP,IGS,CAD,PDF,DWG,DXF etc or samples.

Application Of Customized High Precision Brass CNC Parts for High-Precision Metal Machining Services Brass Parts Supplier

1. Auto Components Hardware Parts Auto Parts
2. Communication Equipment
3. Industrial Equipment
4. Medical EquipmentsMechanical Parts
5. Ship Accessories
6. Electrical Equipment
7. Mechanical Equipment

Quality Control

1. Checking the raw material after they reach our factory----- Incoming quality control (IQC)
2. Checking the details before the production line operated
3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
4. Checking the goods after they are finished---- Final quality control(FQC)
5. Checking the goods after they are finished-----Outgoing quality control(OQC)

Why Choose Us

Advantages

1. Superior Precision and Consistency

CNC machining provides unparalleled accuracy, allowing us to produce brass parts with extremely tight tolerances. This level of precision ensures that each part is identical to the design specifications, minimizing variations and ensuring a perfect fit in the final assembly. Whether it's a small connector or a complex mechanical component, our high - precision brass CNC parts deliver consistent performance, reducing the risk of assembly issues and improving overall product quality.

2. Customization for Unique Applications

One of the key advantages of working with our brass parts supplier is the ability to customize parts according to the customer's specific requirements. We understand that different industries and applications have unique needs, and our CNC machining capabilities enable us to create brass components with custom shapes, features, and dimensions. This level of customization allows our customers to optimize their designs, improve functionality, and gain a competitive edge in their respective markets.

3. Excellent Material Properties

Brass is a versatile material with a range of beneficial properties. Its good electrical conductivity makes it ideal for electrical and electronic applications, while its corrosion resistance ensures long - lasting performance in various environments. Additionally, brass is malleable, which allows for easy machining and the creation of intricate details. Our high - precision brass CNC parts leverage these material properties, providing reliable and durable solutions for a wide range of applications.

4. Cost - Effective Solution

Despite the high level of precision and customization, our customized high - precision brass CNC parts offer a cost - effective solution for our customers. CNC machining is a highly efficient manufacturing process that reduces material waste and production time compared to traditional methods. Additionally, by working closely with our customers to optimize designs and production processes, we can help them achieve their goals while keeping costs under control. This makes our brass parts an attractive option for both small - scale prototypes and large - volume production runs.

FAQ

Q1: Where can I get product & price information?

A1: Send us inquiry e-mail, we will contact you as we receive your mail.

Q2: How long can I get the sample?

A2: Depends on your specific items, within 3-7 days is required generally.

Q3: What kinds of information you need for quote?

A3: Kindly please provide the product drawing in PDF, and will be better you can provide in STEP or IGS.

Q4: What are the payment terms?

A4: We accept 50% as payment deposit, when the goods is done, we take photos for your check and you then pay the balance.

Q5: Are you a trading company or factory?

A5: We are direct factory with 10 experienced engineers and more than 650 employees as well approximate 2,000 square ft. workshop area.

Q6: What shall we do if we do not have drawings?

A6: Please send your sample to our factory, then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions (Length, Height, Width), CAD or 3D file will be made for you if placed order.
