

Custom CNC Turning Parts for Precision Industrial Machinery Fabrication Exceptional Accuracy Repeatability

Our Product Introduction

for more products please visit us on cnc-metalmachining.com

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: Xianheng
- Certification: ISO9001:2015
- Model Number: TN-CNC-79
- Minimum Order Quantity: 1 pcs
- Price: USD \$0.1-\$1.99
- Packaging Details: Carton, As Customers' packaging requirements
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 10000 pcs per week

Product Specification

- Cnc Machining Or Not: CNC Machining
- Type: CNC Milling
- Material Capabilities: Copper, Aluminum, Bronze, Stainless Steel, Brass
- Surface Treatment: Anodized, Anodizing, Anodize/natural, Sandblast, Silk Screen
- Service: OEM/ODM, OEM ODM Metal Stamping, Customized OEM OEM ODM, OEM Service
- Tolerance: 0.01mm, 0.05 Mm, +/-0.005, 0.003-0.05mm
- Application: Machinery, Automotive, Laptop, Industrial Equipment, Engineering
- Color: As Per Customers' Requirement

Product Description

What We Can Provide

Custom CNC Turning Parts for Precision Industrial Machinery Fabrication Exceptional Accuracy Repeatability

Description of Custom CNC Turning Parts for Precision Industrial Machinery Fabrication Exceptional Accuracy Repeatability

Custom CNC (Computer Numerical Control) turning parts are precision-engineered components manufactured using advanced CNC lathes and turning centers, specifically designed to meet the exacting requirements of industrial machinery fabrication. These parts are produced through a subtractive manufacturing process where material is removed from a workpiece using rotating cutting tools, guided by highly accurate digital programming. The result is components with exceptional dimensional accuracy, tight tolerances, and consistent repeatability, ensuring optimal performance in demanding industrial applications.

Specification of Custom CNC Turning Parts for Precision Industrial Machinery Fabrication Exceptional Accuracy Repeatability

CNC Capacity				
CNC Machining Center	3 / 4 / 5 axis CNC Machining Centers		40+ CNC Machines	
CNC Turning	φ0.5 - φ300 * 750 mm		DIN-2768-Fine +/-0.005 mm	
CNC Machining	1270×508×635 mm(max)		DIN-2768-Fine +/-0.005 mm	
CNC Stamping	1000 * 1000 mm(max)		DIN-2768-Fine +/-0.005 mm	
Drawing Format	IGS,STP,X_T ,DXF,DWG , Pro/E, PDF			
Inspection Equipments	Measurement Instrument, Projector, CMM, Altimeter, Micrometer, Thread Gages, Calipers, Pin Gauge etc.			
Material Available				
Stainless Steel	SS201,SS301, SS303, SS304, SS316, SS416, 17-4PH, etc.			
Steel	Mild steel, Carbon Steel, 4140, 4340, Q235, Q345B, 20#, 45# etc.			
Brass	HPb63, HPb62, HPb61, HPb59, H59, H68, H80, H90 etc.			
Copper	C11000,C12000,C12000 C36000 etc.			
Aluminum	AL6061, AL6063, AL6082, AL7075, AL5052, A380 etc.			
Iron	A36, 45#, 1213, 12L14, 1215 etc.			
Plastic	ABS, PC, PE, POM, Delrin, Nylon, Teflon, PP,PEI, Peek etc.			
Surface Finishing				
Aluminum Parts	Stainless Steel Parts	Steel Parts	Copper /Brass	Plastic Parts
Clear Anodized	Polishing	Zinc plating	Polishing	Painting
Color Anodized	Passivating	Oxide black	Passivation	Chrome plating
Sandblast Anodized	Sandblasting	Nickel plating	Galvanized	polishing
Chemical Film	Laser engraving	Chrome plating	Nickel Plating	Sandblast
Brushing		Carburized	Chrome plating	Laser engraving
Polishing		Heat treatment		
Chroming		Powder Coated		

Quality Control

1. Checking the raw material after they reach our factory----- Incoming quality control (IQC)
2. Checking the details before the production line operated
3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
4. Checking the goods after they are finished---- Final quality control(FQC)
5. Checking the goods after they are finished-----Outgoing quality control(OQC)

Application Of Custom CNC Turning Parts for Precision Industrial Machinery Fabrication Exceptional Accuracy Repeatability

1. Auto Components Hardware Parts Auto Parts
2. Communication Equipment
3. Industrial Equipment
4. Medical EquipmentsMechanical Parts
5. Ship Accessories
6. Electrical Equipment
7. Mechanical Equipment

Why Choose Us

Our Advantages

1. Unmatched Precision & Consistency

CNC turning eliminates human error, ensuring every part meets exact design specifications with minimal deviation. This precision is critical for components like shafts, gears, and connectors, where even slight misalignments can cause machinery failure.

Repeatability guarantees that replacement parts fit perfectly, reducing downtime and maintenance costs.

2. Enhanced Efficiency & Reduced Lead Times

Automated CNC processes enable faster production cycles compared to manual machining, accelerating time-to-market for industrial machinery.

Rapid prototyping and scalable batch production ensure quick iterations and cost-effective manufacturing for both low- and high-volume orders.

3. Cost-Effectiveness Through Waste Reduction & Durability

Precision machining minimizes material waste, lowering raw material costs.

High-quality finishes and durable materials extend part lifespan, reducing the need for frequent replacements and operational disruptions.

Long-term reliability translates to lower total cost of ownership (TCO) for industrial machinery.

4. Customization for Specialized Applications

CNC turning allows for bespoke designs tailored to unique industrial requirements, such as custom threads, grooves, or complex geometries.

Flexibility in material selection and finishing options (polishing, anodizing, plating) ensures compatibility with specific operating conditions (corrosion resistance, heat tolerance, etc.).

FAQ

Q1: Where can I get product & price information?

A1: Send us inquiry e-mail, we will contact you as we receive your mail.

Q2: How long can I get the sample?

A2: Depends on your specific items, within 3-7 days is required generally.

Q3: What kinds of information you need for quote?

A3: Kindly please provide the product drawing in PDF, and will be better you can provide in STEP or IGS.

Q4: What are the payment terms?

A4: We accept 50% as payment deposit, when the goods is done, we take photos for your check and you then pay the balance.

Q5: Are you a trading company or factory?

A5: We are direct factory with 10 experienced engineers and more than 650 employees as well approximate 2,000 square ft. workshop area.

Q6: What shall we do if we do not have drawings?

A6: Please send your sample to our factory, then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions (Length, Height, Width), CAD or 3D file will be made for you if placed order.
