

Customized Metal Frame Parts for High-Stakes Applications in Aerospace and Defense and Automotive and Industrial Machinery

Basic Information

. Place of Origin: Shenzhen China Brand Name: Xianheng · Certification: ISO9001:2015 Model Number: MFA-XG-078 • Minimum Order Quantity:

• Price: USD \$0.1-\$1.99

 Packaging Details: Carton, As Customers'packaging requirements

1 pcs

• Delivery Time: Samples 7-10 days, Mass production 20-25

days

• Payment Terms: T/T, Western Union, MoneyGram

. Supply Ability: 50000 pcs per week

Product Specification

• Supply Type: **OEM Service**

 Material Capabilities: Stainless Steel, Brass, Aluminum, Steel Process: Bending, Laser Cutting, Welding, Stamping · Application: Auto, motorcycle, industry, ariculture, furniture, e · Packing Details: Carton, Wooden Case, Plastic Cargo

Black, Silver, Customized Color

. Place Of Origin: China

Product Description

What We Can Provide

Customized Metal Frame Parts for High-Stakes Applications in Aerospace and Defense and Automotive and Industrial Machinery

Description Of Customized Metal Frame Parts for High-Stakes Applications in Aerospace and Defense and Automotive and Industrial Machinery

Customized metal frame parts are engineered to meet the stringent demands of high-stakes industries where safety, reliability, and performance are critical. These components serve as structural foundations in aerospace (aircraft, spacecraft, satellites), defense (military vehicles, weapon systems), automotive (electric vehicles, high-performance engines), and industrial machinery (robotics, heavy equipment, energy systems).

Material Of Customized Metal Frame Parts for High-Stakes Applications in Aerospace and Defense and Automotive and Industrial Machinery

Production Capability Secondary Operations

Surface Operations	* Deburring work by machines,then by hands; * As long as you need no scratches on the products, we can use the film protected material for products during production; * Remove sharps of the products; * Ultrasonic cleaning after production.
Surface Treatments	Powder Coating, Polishing, Brushing, PVD Plating, PVC Coating, Ceramic Coating, Chrome Plating, Nickel Plating, Tin Plating, Copper Plating, Silver Plating, Sandblasting, Anodizing, Dacromet, Baking Varnish, Electrophoresis Coating, Zinc Plating, Hot Dip Galvanizing.
LOGO Printing	Laser Engraving, Silk-screening etc
Assembly Service	Yolanda provide products assembly service after each component production.
Custom Packaging	 Design packaging according to your products; Make the packagings according to your requests; Print your LOGO on the packaging as long as you need; Other request according to your need.

Quality Control

- 1. Checking the raw material after they reach our factory----- Incoming quality control (IQC)
- 2. Checking the details before the production line operated
- 3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
- 4. Checking the goods after they are finished---- Final quality control(FQC)
- 5. Checking the goods after they are finished----Outgoing quality control(OQC)

Why Choose Us

Advantages

High Strength-to-Weight Ratio for Optimal Performance

Lightweight yet exceptionally strong, these parts reduce fuel consumption in aerospace and automotive applications while maintaining structural integrity under extreme loads.

Titanium and advanced composites resist fatigue and corrosion, extending service life in harsh environments.

Precision Engineering for Critical Applications

Tight tolerances (±0.001mm or better) ensure seamless integration with complex systems, minimizing assembly errors and improving overall efficiency.

Custom geometries enhance aerodynamics, thermal management, and electromagnetic compatibility in defense and aerospace systems.

Durability Under Extreme Conditions

Resistant to high temperatures, pressure, vibration, and chemical exposure, these components perform reliably in engines, turbines, and combat vehicles.

Surface treatments like anodizing, plating, and thermal spray coatings further enhance wear resistance and longevity.

Cost Efficiency Through Long-Term Reliability

Reduced maintenance needs and extended operational lifespans lower total lifecycle costs compared to conventional materials.

Customization eliminates over-engineering, optimizing material usage and manufacturing efficiency for high-volume production.

Aluminum Material

Material:

Aluminum 5052 Aluminum 6061

Aluminum 6063 etc

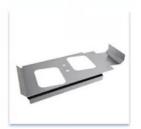

Finish:

Anodic Oxidation

Polishing

Powder Coating

Spray Painting

Why Choose Us

Multipe Machines

Professional machines, skillful workers, guarantee the quality and lead time.

Strictly Confidential

We will protect the customers'design and the customer can request a confidentiality agreement

Quality Inspection

We have a strict quality inspection process to ensure the quality of our products

FAQ

- 1. How can I get the price? We usually quote within 24 hours after we get your inquiry (except weekend and holidays). If you are urgent to get the price, please email us or contact us in other ways so that we can offer you a quote.
- 2. Can I buy samples? Yes. Please feel free to contact us.
- 3. What is your lead time? It depends on the order quantity and the season you place the order. Usually we can ship within 7-15 days for small quantity, and about 30 days for large quantity.
- 4. What is your payment term? T/T, Western Union, MoneyGram, and Paypal. This is negotiable.
- 5. What is the shipping method? It could be shipped by sea, by air, or by express (EMS, UPS, DHL, TNT, FEDEX etc). Please confirm with us before placing orders.
- 6. How do you make our business long-term and good relationship? We keep good quality and competitive price to ensure our customers benefit. Furthermore, we respect every customer as our friend and we sincerely do business and make friends with them, no matter where they come from.
