

## High-Precision CNC Turned Components Plastic Metal Material Custom CNC Turning Solutions Factory

### Our Product Introduction

for more products please visit us on [cnc-metalmachining.com](http://cnc-metalmachining.com)

#### Basic Information

- Place of Origin: Shenzhen China
- Brand Name: Xianheng
- Certification: ISO9001:2015
- Model Number: TN-CNC-93
- Minimum Order Quantity: 1 pcs
- Price: USD \$0.1-\$1.99
- Packaging Details: Carton, As Customers' packaging requirements
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 10000 pcs per week

#### Product Specification

- Cnc Machining Or Not: CNC Machining
- Type: CNC Milling
- Material Capabilities: Copper, Aluminum, Bronze, Stainless Steel, Brass
- Surface Treatment: Anodized, Anodizing, Anodize/natural, Sandblast, Silk Screen
- Service: OEM/ODM, OEM ODM Metal Stamping, Customized OEM OEM ODM, OEM Service
- Tolerance: 0.01mm, 0.05 Mm, +/-0.005, 0.003-0.05mm
- Application: Machinery, Automotive, Laptop, Industrial Equipment, Engineering
- Color: As Per Customers' Requirement

## Product Description

### What We Can Provide

#### High-Precision CNC Turned Components Plastic Metal Material Custom CNC Turning Solutions Factory

##### Description of High-Precision CNC Turned Components Plastic Metal Material Custom CNC Turning Solutions Factory

A High-Precision CNC Turned Components Factory specializes in manufacturing custom plastic and metal parts with exceptional accuracy using Computer Numerical Control (CNC) turning technology. These facilities leverage advanced CNC lathes equipped with live tooling to produce round, cylindrical, spherical, or conical components such as pins, shafts, spacers, and fittings. By automating tool paths via computer programming, the process ensures tight tolerances ( $\pm 0.005$ "– $0.01$ " ), repeatability, and efficiency across scalable production volumes (1–100,000+ parts). The factory supports a wide range of materials, including plastics (e.g., PVC, POM, PEI, PEEK), metals (e.g., stainless steel, aluminum), and composites, catering to industries like aerospace, automotive, medical, and electronics.

##### Specification of High-Precision CNC Turned Components Plastic Metal Material Custom CNC Turning Solutions Factory

CNC Capacity				
CNC Machining Center	3 / 4 / 5 axis CNC Machining Centers		40+ CNC Machines	
CNC Turning	φ0.5 - φ300 * 750 mm		DIN-2768-Fine +/-0.005 mm	
CNC Machining	1270×508×635 mm(max)		DIN-2768-Fine +/-0.005 mm	
CNC Stamping	1000 * 1000 mm(max)		DIN-2768-Fine +/-0.005 mm	
Drawing Format	IGS,STP,X_T ,DXF,DWG , Pro/E, PDF			
Inspection Equipments	Measurement Instrument, Projector, CMM, Altimeter, Micrometer, Thread Gages, Calipers, Pin Gauge etc.			
Material Available				
Stainless Steel	SS201,SS301, SS303, SS304, SS316, SS416, 17-4PH, etc.			
Steel	Mild steel, Carbon Steel, 4140, 4340, Q235, Q345B, 20#, 45# etc.			
Brass	HPb63, HPb62, HPb61, HPb59, H59, H68, H80, H90 etc.			
Copper	C11000,C12000,C12000 C36000 etc.			
Aluminum	AL6061, Al6063, AL6082, AL7075, AL5052, A380 etc.			
Iron	A36, 45#, 1213, 12L14, 1215 etc.			
Plastic	ABS, PC, PE, POM, Delrin, Nylon, Teflon, PP,PEI, Peek etc.			
Surface Finishing				
Aluminum Parts	Stainless Steel Parts	Steel Parts	Copper /Brass	Plastic Parts
Clear Anodized	Polishing	Zinc plating	Polishing	Painting
Color Anodized	Passivating	Oxide black	Passivation	Chrome plating
Sandblast Anodized	Sandblasting	Nickel plating	Galvanized	polishing
Chemical Film	Laser engraving	Chrome plating	Nickel Plating	Sandblast
Brushing		Carburized	Chrome plating	Laser engraving
Polishing		Heat treatment		
Chroming		Powder Coated		

##### Quality Control

1. Checking the raw material after they reach our factory----- Incoming quality control ( IQC)
2. Checking the details before the production line operated
3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
4. Checking the goods after they are finished---- Final quality control(FQC)
5. Checking the goods after they are finished-----Outgoing quality control(OQC)

##### Application Of High-Precision CNC Turned Components Plastic Metal Material Custom CNC Turning Solutions Factory

1. Auto Components Hardware Parts Auto Parts
2. Communication Equipment
3. Industrial Equipment
4. Medical EquipmentsMechanical Parts
5. Ship Accessories
6. Electrical Equipment
7. Mechanical Equipment

## Why Choose Us

### Our Advantages

#### Unmatched Precision & Consistency

CNC turning eliminates human error by following computer-generated tool paths, achieving dimensional accuracy critical for industries with strict margins (e.g., aerospace, medical implants). The automated process ensures every part meets exact specifications, reducing waste and rework.

#### Material Versatility & Cost Efficiency

The factory handles over 50 plastic and metal materials, offering cost-effective solutions tailored to application needs. Plastics provide corrosion resistance, lightweight construction, and insulation, while metals excel in durability and thermal stability. Custom material selection optimizes performance and budget.

#### Faster Production & Scalability

CNC turning produces parts 30–50% faster than conventional methods, with the ability to scale from prototypes to high-volume runs seamlessly. Live tooling integrates milling, drilling, and tapping operations in a single setup, minimizing lead times and machine downtime.

#### Design Flexibility & Complex Geometries

Advanced CNC lathes with 5-axis capabilities enable the production of intricate shapes and tight-tolerance features (e.g., threads, grooves) that manual machining cannot achieve. This flexibility supports rapid prototyping and customization for niche applications.

## Factory Show

### Factory Equipment

WEDM

Milling Machine

CNC Wire Cut

Coordinate measuring machine

CNC Bending Machine

Hydraulic Press Machine

SLS/SLA Machine

5-Axis CNC

CNC Lathe

Laser cutting Machine

CNC Punching Machine

Injection Molding machine

## FAQ

### Q1: Where can I get product & price information?

A1: Send us inquiry e-mail, we will contact you as we receive your mail.

### Q2: How long can I get the sample?

A2: Depends on your specific items, within 3-7 days is required generally.

### Q3: What kinds of information you need for quote?

A3: Kindly please provide the product drawing in PDF, and will be better you can provide in STEP or IGS.

### Q4: What are the payment terms?

A4: We accept 50% as payment deposit, when the goods is done, we take photos for your check and you then pay the balance.

### Q5: Are you a trading company or factory?

A5: We are direct factory with 10 experienced engineers and more than 650 employees as well approximate 2,000 square ft. workshop area.

### Q6: What shall we do if we do not have drawings?

A6: Please send your sample to our factory, then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions (Length, Height, Width), CAD or 3D file will be made for you if placed order.
