

Professional Impressions Tailored Stamping Solutions Metal Stamping Bending Frames Supplier

Our Product Introduction

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: Xianheng
- Certification: ISO9001:2015
- Model Number: MFA-XG-084
- Minimum Order Quantity: 1 pcs
- Price: USD \$0.1-\$1.99
- Packaging Details: Carton, As Customers' packaging requirements
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 50000 pcs per week

Product Specification

- Supply Type: OEM Service
- Material Capabilities: Stainless Steel, Brass, Aluminum, Steel
- Process: Bending, Laser Cutting, Welding, Stamping
- Application: Auto, motorcycle, industry, agriculture, furniture, etc.
- Packing Details: Carton, Wooden Case, Plastic Cargo
- Color: Black, Silver, Customized Color
- Place Of Origin: China

Product Description

What We Can Provide

Professional Impressions Tailored Stamping Solutions Metal Stamping Bending Frames Supplier

Description Of Professional Impressions Tailored Stamping Solutions Metal Stamping Bending Frames Supplier

Professional Impressions specializes in custom metal stamping and bending services, offering tailored solutions for frame manufacturing across industries like automotive, aerospace, electronics, and construction. Their expertise lies in precision engineering, material flexibility (steel, aluminum, stainless steel, copper, brass), and integrated processes such as laser cutting, tooling design, and assembly. By combining advanced stamping presses (100–1,320 tons) with in-house die manufacturing, they ensure high-quality, cost-effective production of complex components.

Material Of Professional Impressions Tailored Stamping Solutions Metal Stamping Bending Frames Supplier

Production Capability

Secondary Operations

Surface Operations	* Deburring work by machines, then by hands; * As long as you need no scratches on the products, we can use the film protected material for products during production; * Remove sharps of the products; * Ultrasonic cleaning after production.
Surface Treatments	Powder Coating, Polishing, Brushing, PVD Plating, PVC Coating, Ceramic Coating, Chrome Plating, Nickel Plating, Tin Plating, Copper Plating, Silver Plating, Sandblasting, Anodizing, Dacromet, Baking Varnish, Electrophoresis Coating, Zinc Plating, Hot Dip Galvanizing.
LOGO Printing	Laser Engraving, Silk-screening etc
Assembly Service	Yolanda provide products assembly service after each component production.
Custom Packaging	* Design packaging according to your products; * Make the packagings according to your requests; * Print your LOGO on the packaging as long as you need; * Other request according to your need.

Quality Control

1. Checking the raw material after they reach our factory----- Incoming quality control (IQC)
2. Checking the details before the production line operated
3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
4. Checking the goods after they are finished---- Final quality control(FQC)
5. Checking the goods after they are finished-----Outgoing quality control(OQC)

Why Choose Us

Advantages

High Precision & Tight Tolerances

Utilizes progressive die stamping and CNC-controlled bending to achieve exact dimensions, critical for industries like medical devices and robotics.

Example: Aerospace components require tolerances as tight as ± 0.001 inches, which Professional Impressions consistently meets.

Cost-Effective Mass Production

High-speed stamping reduces per-unit costs for large orders, while minimal material waste (via optimized blanking and nesting) lowers raw material expenses.

Case Study: A client in the automotive sector reduced production costs by 22% through bulk stamping of frame rails.

Material & Design Flexibility

Supports diverse materials (e.g., specialty metals for corrosion resistance) and complex geometries (e.g., curved exhaust systems for automotive frames).

Innovation: Their laser-cutting integration enables intricate designs without secondary machining, speeding up prototyping.

End-to-End Customization & Reliability

Offers in-house tooling design, prototyping, and assembly, ensuring parts align with project specifications from concept to delivery.

Compliance: Adheres to industry standards (TS 16949, ASM) for quality assurance, reducing rework risks.

Aluminum Material

Material:

Aluminum 5052

Aluminum 6061

Aluminum 6063 etc

Finish:

Anodic Oxidation

Polishing

Powder Coating

Spray Painting

Why Choose Us

Multiple Machines

5-Axis CNC & Imp Professional machines, skillful workers, machines, skillful
with accuracy of guarantee the quality and lead time. guarantee fast lead time

Strictly Confidential

We will protect the customers' design
and the customer can request a
confidentiality agreement

Quality Inspection

We have a strict quality inspection
process to ensure the quality of our
products

FAQ

1. How can I get the price? - We usually quote within 24 hours after we get your inquiry (except weekend and holidays). If you are urgent to get the price, please email us or contact us in other ways so that we can offer you a quote.
2. Can I buy samples? - Yes. Please feel free to contact us.
3. What is your lead time? - It depends on the order quantity and the season you place the order. Usually we can ship within 7-15 days for small quantity, and about 30 days for large quantity.
4. What is your payment term? - T/T, Western Union, MoneyGram, and Paypal. This is negotiable.
5. What is the shipping method? - It could be shipped by sea, by air, or by express (EMS, UPS, DHL, TNT, FEDEX etc). Please confirm with us before placing orders.
6. How do you make our business long-term and good relationship? - We keep good quality and competitive price to ensure our customers benefit. Furthermore, we respect every customer as our friend and we sincerely do business and make friends with them, no matter where they come from.
