

Professional Customization Tailored Stamping Solutions Stamping Bending Metal Frames Factory

Basic Information

Place of Origin: Shenzhen China
Brand Name: Xianheng
Certification: ISO9001:2015
Model Number: MFA-XG-085
Minimum Order Quantity: 1 pcs

• Price: USD \$0.1-\$1.99

Packaging Details: Carton, As Customers'packaging

requirements

Delivery Time: Samples 7-10 days, Mass production 20-25

days

• Payment Terms: T/T, Western Union, MoneyGram

• Supply Ability: 50000 pcs per week

Product Specification

• Supply Type: OEM Service

Material Capabilities: Stainless Steel, Brass, Aluminum, Steel
 Process: Bending, Laser Cutting, Welding, Stamping
 Application: Auto,motorcycle,industry,ariculture,furniture,e
 Packing Details: Carton, Wooden Case, Plastic Cargo
 Color: Black, Silver, Customized Color

• Place Of Origin: China

Product Description

What We Can Provide

Professional Customization Tailored Stamping Solutions Stamping Bending Metal Frames Factory

Description Of Professional Customization Tailored Stamping Solutions Stamping Bending Metal Frames Factory

This factory specializes in delivering high-precision, customized metal stamping and bending services for frame manufacturing. Equipped with advanced stamping presses (ranging from 100 to 1,320 tons) and CNC-controlled bending machines, it handles materials like stainless steel, aluminum, brass, and cold-rolled steel. The factory integrates in-house tooling design (progressive, transfer, and compound dies), laser cutting, and assembly to produce durable, complex components for industries such as automotive, electronics, aerospace, and consumer goods. ISO 9001:2015 certified, it ensures quality compliance and offers end-to-end solutions from prototyping to mass production.

Material Of Professional Customization Tailored Stamping Solutions Stamping Bending Metal Frames Factory

Production Capability Secondary Operations

,	
Surface Operations	* Deburring work by machines,then by hands; * As long as you need no scratches on the products, we can use the film protected material for products during production; * Remove sharps of the products; * Ultrasonic cleaning after production.
Surface Treatments	Powder Coating, Polishing, Brushing, PVD Plating, PVC Coating, Ceramic Coating, Chrome Plating, Nickel Plating, Tin Plating, Copper Plating, Silver Plating, Sandblasting, Anodizing, Dacromet, Baking Varnish, Electrophoresis Coating, Zinc Plating, Hot Dip Galvanizing.
LOGO Printing	Laser Engraving, Silk-screening etc
Assembly Service	Yolanda provide products assembly service after each component production.
Custom Packaging	 Design packaging according to your products; Make the packagings according to your requests; Print your LOGO on the packaging as long as you need; Other request according to your need.

Quality Control

- 1. Checking the raw material after they reach our factory----- Incoming quality control (IQC)
- 2. Checking the details before the production line operated
- 3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
- 4. Checking the goods after they are finished---- Final quality control(FQC)
- 5. Checking the goods after they are finished----Outgoing quality control(OQC)

Why Choose Us

Advantages

High Precision & Consistency

Utilizes CNC-controlled dies and advanced presses to achieve tolerances as tight as ±0.001 inches, critical for medical devices, aerospace parts, and electronics.

Example: Produces automotive brackets with consistent dimensions across 100,000+ units, reducing assembly errors.

Cost-Effective Mass Production

High-speed stamping (hundreds to thousands of parts/hour) lowers per-unit costs, while optimized blanking and nesting minimize material waste.

Case Study: A client in the electronics sector reduced production costs by 30% through bulk stamping of connector frames.

Material & Design Flexibility

Supports specialty metals (e.g., galvanized steel for corrosion resistance) and complex geometries (e.g., curved exhaust systems for automotive frames).

Innovation: Combines laser cutting with stamping to create intricate designs without secondary machining, accelerating prototyping.

End-to-End Customization & Reliability

Offers in-house design, tooling, and assembly, ensuring parts align with project specifications. Compliance with standards like TS 16949 (automotive) reduces rework risks.

Example: Delivers custom eyeglass frames with unique color combinations and detailing, meeting brand-specific aesthetic and durability requirements.

Aluminum Material

Material:

Aluminum 5052

Aluminum 6061

Aluminum 6063 etc

Finish:

Anodic Oxidation

Polishing

Powder Coating

Spray Painting

Why Choose Us

Multipe Machines

Professional machines, skillful workers, guarantee the quality and lead time.

Strictly Confidential

We will protect the customers'design and the customer can request a confidentiality agreement

Quality Inspection

We have a strict quality inspection process to ensure the quality of our products

FAQ

- 1. How can I get the price? We usually quote within 24 hours after we get your inquiry (except weekend and holidays). If you are urgent to get the price, please email us or contact us in other ways so that we can offer you a quote.
- 2. Can I buy samples? Yes. Please feel free to contact us.
- 3. What is your lead time? It depends on the order quantity and the season you place the order. Usually we can ship within 7-15 days for small quantity, and about 30 days for large quantity.
- 4. What is your payment term? T/T, Western Union, MoneyGram, and Paypal. This is negotiable.
- 5. What is the shipping method? It could be shipped by sea, by air, or by express (EMS, UPS, DHL, TNT, FEDEX etc). Please confirm with us before placing orders.
- 6. How do you make our business long-term and good relationship? We keep good quality and competitive price to ensure our customers benefit. Furthermore, we respect every customer as our friend and we sincerely do business and make friends with them, no matter where they come from.
